

BUY A HAM FROM US! — YOU'LL BE HAPPY —

We've made hams in our business for the last 19 years — we just weren't ready for that first year. When I think back to those times I laugh a bit at what we went through to do it. Our cooking facilities consisted of a domestic range that we bought at Pascal's (long gone now, both the range and Pascal's). We absolutely wore out that poor stove roasting two hams at a time, day and night. In the ensuing years we added ovens — to the point where we can now cook about 65 hams at a time — and that doesn't include smoking!

I laugh as well when I think of the quantity of ham that we've sold over the years, by now in excess of a million pounds — not of raw product but fully finished product. What have we learned over the years?

The short answer is: don't change a thing! The recipe, the technique, the cure, the seasoning — none of that has changed. Our customers evidently appreciate this, because if you took a poll let's say for the occasion of Easter — you'd be amazed at how far people come for our hams. If you've never had a hand-made ham, you'll be amazed at the texture, the tenderness and the flavour — qualities which made our ham the popular item it is today — And if hand-made is what you're used to, we're it.

OUR LAMB SHOULDER ROASTS

We make our lamb shoulder roasts boneless and rolled — very old-fashioned. They average about 4 - 5 lb in size and roast in about 2 hours. They are available either 'au naturel' or seasoned with a mint, garlic and rosemary marinade.
