**Black & McDonald**  
 Founded in 1921, Black & McDonald, is a privately owned and operated multi-trade Canadian company with operations across north America. We have earned a reputation as a progressive, employee oriented and client-focused service provider to the ICI and nuclear Industry in Ontario. Our continuously expanding business based in Ontario currently requires...

**MECHANICAL PROJECT MANAGER / COORDINATOR**  
 Plan, schedule and successfully manage multiple concurrent small, and large, construction and maintenance projects at various sites in southern Ontario in accordance with corporate policies and procedures. Responsible for meeting the obligations of the contract and for client satisfaction, you will develop projects plans and use your project management skills to ensure projects are completed safely, to specified quality standards, and within budget and schedule. You will proactively manage project: communication, performance reporting, risks, conflicts, and scope changes. You have a proven track record of delivering challenging projects to agreed objectives and experience maintaining a high degree of professionalism and "grace under pressure". Requires 8+ years of providing project management leadership.

**MECHANICAL ESTIMATOR**  
 Prepare accurate estimates of labour subcontracts, material costs, general expenses, lease / rentals, and overheads, utilizing client specifications, drawings, and schedules, performing job site walk-downs and quantity take-offs. Attention to detail is a must. You will work on several different projects at one time and possess excellent technical and practical knowledge as well as a good working knowledge of Excel and Quick Pen (or equivalent). 5+ years of estimating experience at the conceptual, schematic and construction level in an industrial / construction setting. Familiarity with Ontario Building Trade agreements would be an asset.

**PURCHASING AGENT**  
 Provide technical and administrative support with emphasis on sourcing qualified suppliers, negotiating price and purchasing goods and services in support of projects and facilities management operations. This includes the implementation of longer-term commodity contracts to meet day-to-day business needs. You will secure quotes for review by the Estimators during the bid process and where possible suggest alternate materials or methods. You will issue purchase orders in a timely fashion and follow-up with suppliers to ensure on-time delivery of goods and services and related documentation and certifications. You will keep internal clients informed and work with suppliers to correct problems. Experience working with JONAS would be an asset.

**QUALITY CONTROL INSPECTORS MECHANICAL / WELDING**  
 You will perform on-site visual inspection, dimensional checking and witness testing of mechanical structures, piping and structural steel welded fabrications to ensure compliance with contract drawings, specifications and quality standards. You are a CSA W178.2 Level II Visual Welding Inspector and fully conversant with ASME Codes, ideally in a nuclear plant setting. Familiarity with CSA N286, CSA N285, CSA Z299, and ISO 9000-2000 would be an asset.

**ELECTRICAL**  
 You will perform on-site visual inspection and witness testing of electrical equipment, installations and modifications to ensure compliance with contract drawings, specifications and quality standards. You possess several years of progressive responsibility as a certified journeyman electrician and three or more years of full time experience as an electrical inspector in an industrial or construction setting. Related college level courses would be an asset.

In both roles, your keen eye for detail will ensure the accurate and timely preparation and implementation of inspection and test plans/checklists and turnover documentation / history dockets. As well you will assure effective overall implementation of the quality program on-site, provide the project team with proposed resolutions to quality issues, identify opportunities for improvement, and maintain effective working relationships with regulatory authorities (TSSA) and the client on quality matters.

These outstanding opportunities offer exceptional rewards and a comprehensive compensation package. We thank all applicants; however, only those being interviewed will be contacted. Please apply in writing, stating the position of interest, to:

 No phone calls or agencies, please  
**Black & McDonald**

**CUSTOMER SERVICE REPS**  
 A minimum of 2 years' experience, preferably in a high volume customer service environment is required. Experience assisting sales reps, completing credits, and resolving customer issues round out your functions. Strong prioritization and follow-up skills are essential.

**SPECIAL ORDER ASSISTANTS**  
 You will be responsible for checking stock availability and order status, as well as the preparation of bills of lading and credit notes. MS Office and AS400 computer skills are required.

**AZ DRIVER**  
 Duties include local driving, moving trailers around the yard and some general warehouse work. You must have a valid class AZ license, have the ability to lift heavy boxes and must be flexible to load and unload trucks. Some overtime will be required.
