PUBLIC NOTICE

CLASS ENVIRONMENTAL ASSESSMENT for the NEW OPERATIONS CENTRE for the TOWN OF WHITCHURCH-STOUFFVILLE

The Town of Whitchurch-Stouffville is commencing a review of the need, justification and location for a new Operations Centre to serve the residents of the municipality. This study is being conducted in accordance with the Municipal Class Environmental Assessment process, which is an approved process under the Environmental Assessment Act.

It is anticipated that the existing Operations Centre, located at 5827 Main Street in Stouffville, will not adequately meet the needs of the Town, which continues to experience rapid growth. The facility is required by the Town for personnel needs as well as vehicle and equipment storage for various municipal functions, including roads, water and wastewater, and parks and leisure services.

As part of the Study exercise, a complete inventory of current environmental conditions will be collected to identify and evaluate alternative solutions. This evaluation will consider not only the natural environment, but also socio-economic impacts and technical feasibility together with proposed measures to mitigate impacts.

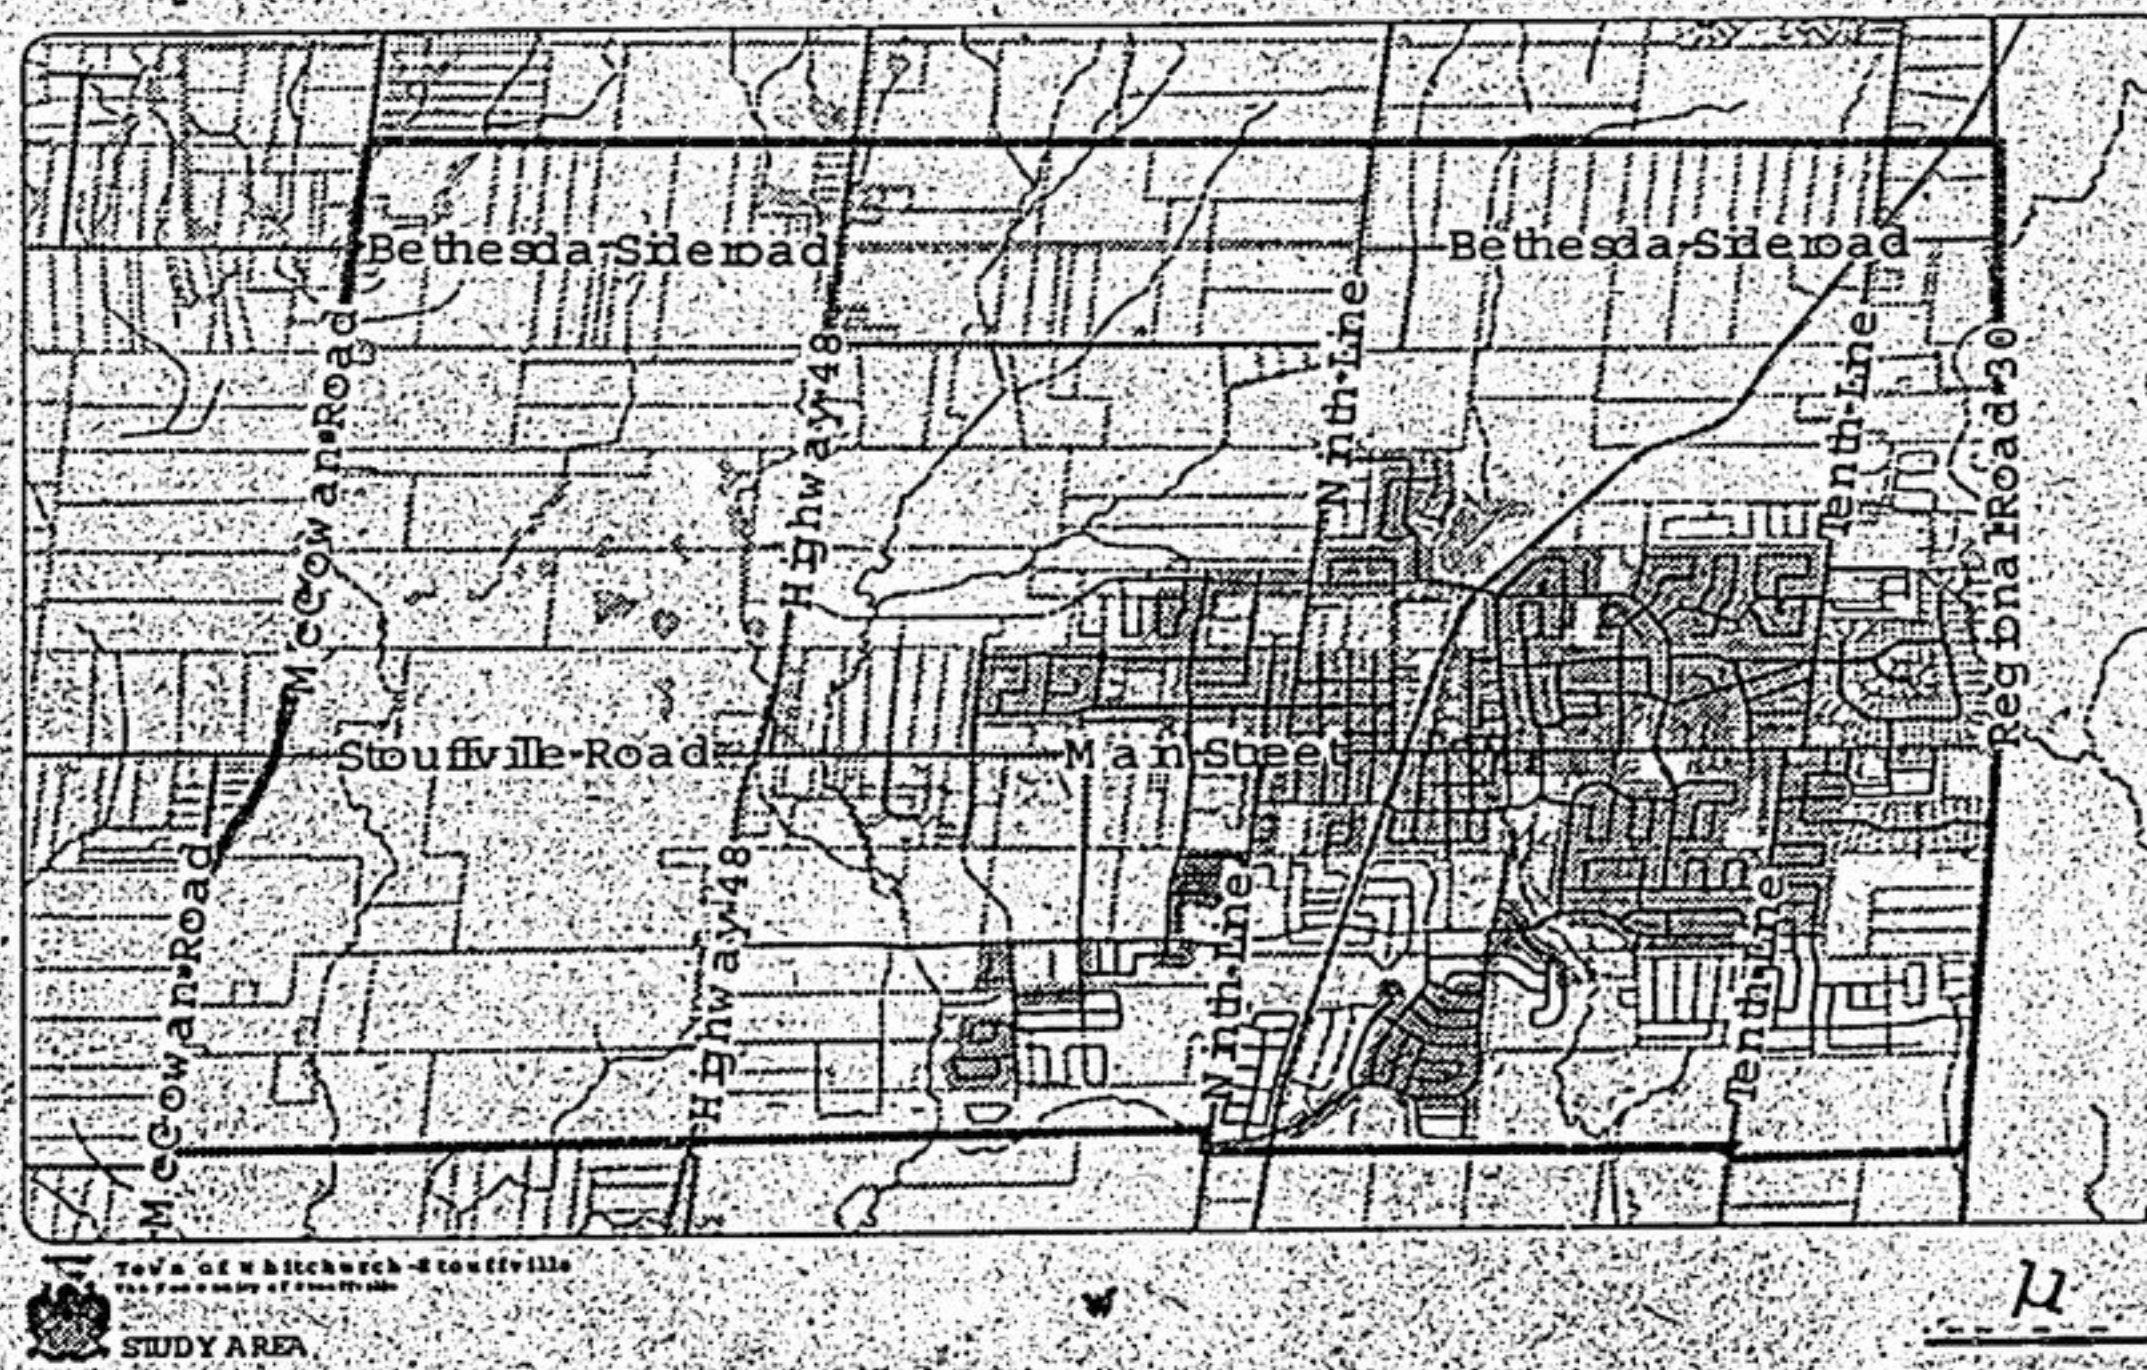

Public consultation is an important element of this project. Public Information Centres will be held later this summer to provide background information on the study and the various alternatives considered, as well as a comparative analysis of the alternatives. Upon completion of the study, an Environmental Study Report (ESR) describing the project will be prepared and made available for public review for a period of 30 calendar days. Notification of the date, time and location of the filing of the ESR will be made through newspaper notices and letters mailed to interested parties.

Comments and information regarding this project will be collected to assist the Town in meeting the requirements of the Environmental Assessment Act. With the exception of personal information all comments received will become part of the public record. If you would like to be included on the mailing list or wish to obtain more information about the project, please contact:

GREEN CORNER

In September, 2007, the Town will introduce source separated organics (Green Bins) to its waste management program with an important goal to reduce the amount of household waste diverted to landfill sites. Green Bins are used to separate organic waste from regular household waste, prior to introduction into the waste stream.

WHAT TYPES OF THINGS GO IN THE GREEN BIN?

- Shredded and soiled paper
- Soiled food packaging such as pizza boxes
- Diapers
- Hair, nail clippings
- Sanitary products, tissues
- Animal waste, cat litter
- Food scraps, including meat products
- Baking ingredients, including eggs and shells
- Houseplants, including soil

WHAT TYPES OF THINGS DO NOT GO IN THE GREEN BIN?

- Fireplace or BBQ ashes, wood
- Cigarette butts, tobacco
- Gum
- Popsicle sticks and toothpicks
- Ear cleaners, cotton balls, make-up removal pads, dental floss
- Dryer lint, dryer sheets
- Baby wipes
- Vacuum cleaner bags and contents
- Recyclable materials
