

# GARDEN BASKET

our Basket Since 1929

closing Wednesday, July 25, 2007

## INTERSECTION COMPLETE!!!

The intersection at the corner of 16th and Markham Road is completed! Thank you for your patience while road improvements were being made.

## Environmentally-Friendly Reusable Bags!

**LET'S DO OUR PART TO PROTECT THE ENVIRONMENT!**

Our high-quality, super convenient reusable bags will help you eliminate hundreds, if not thousands, of those plastic and paper shopping bags choking our planet. It's an easy way to do our part!

Our reusable grocery bags are carefully chosen to offer you the best features available in a reusable bag.

- Each bag can replace 3-4 plastic bags each time it is used. Used once a week for 2 years, it will keep 416 bags out of landfills; enough to drive a car almost 48 kms.
- The gusset at the bottom protects groceries and is easily removed for a quick wipe down.
- The handles are long enough to hang on your shoulder but short enough to swing at your sides.
- Bags stand up straight on their own for loading or unloading. They fold neatly for storage.

**Why use reusable bags?**

- Each year billions of bags end up as ugly litter.
- Eventually they break down into tiny toxic bits polluting our soil, river, lakes and oceans.
- Production requires vast amounts of oil and produces pollution.
- Countless animals needlessly die each year from unknowingly consuming them.
- In a landfill, plastic bags take up to 1,000 years to degrade.
- Energy needed to manufacture and transport disposable bags creates global warming emissions.

**.99** Each
