York Region Natural Heritage & Forestry Services,
York and Durham Land Stewardship Councils

Imagine, an electricity system powered by thought.

Is it reasonable to ask the government to put more thought into how we generate power in Ontario? We think so, especially when it comes to new clean-coal technology. With it, we can reduce smog emissions by 96.4%, mercury by 90% and particulate matter by 99%. And that's not all. Thanks to a 250-year supply of coal, plus an existing infrastructure to make use of it, we can avoid large rate increases associated with other more costly energy sources proposed by the government like natural gas. At the same time, we can secure jobs and minimize the potential for blackouts. Does all this sound reasonable? Visit www.abetterenergyplan.ca for more information, and decide for yourself.

EVENT TAKES OFF

Skydivers, face painting, real and model aircraft displays, sightseeing flights and a kids zone are among the highlights of an open house Saturday at Buttonville Airport. The event runs from 11 a.m. to 3 p.m. and is held in partnership with United Way of York Region and Smart Commute 404-7. Promoting the open house are Smart Commute's Paul Bradbury (left), Brad Kuiper, United Way campaign rep from State Farm Insurance, Toronto Airways president Derek Sifton, Beth Kodama, the region's United Way campaign rep and Smart Commute's Basil Marcello.
