

# Stouffville Says

By Hannelore Volpe

What is the biggest election issue? How are the campaigns going?

—Asked at the Nofrills plaza

Mary-Louise TUFFORD

What annoys me the most is politicians degrading others to make themselves look better. I would like them to speak on things that concern citizens and do something about the issues.

Sam SEKULOVSKI

Politicians make many promises they can't keep. It makes me wonder how you can believe whatever they say. No matter what the party, I believe they are all in the same boat.

Joyce MACINTYRE

I am not getting any campaign literature to find out what candidates' platforms are. I have had to do a lot of research on the Internet for the referendum question. I am really confused about it.

Stan CROCKFORD

The biggest issue is the environment, especially when it comes to global warming.

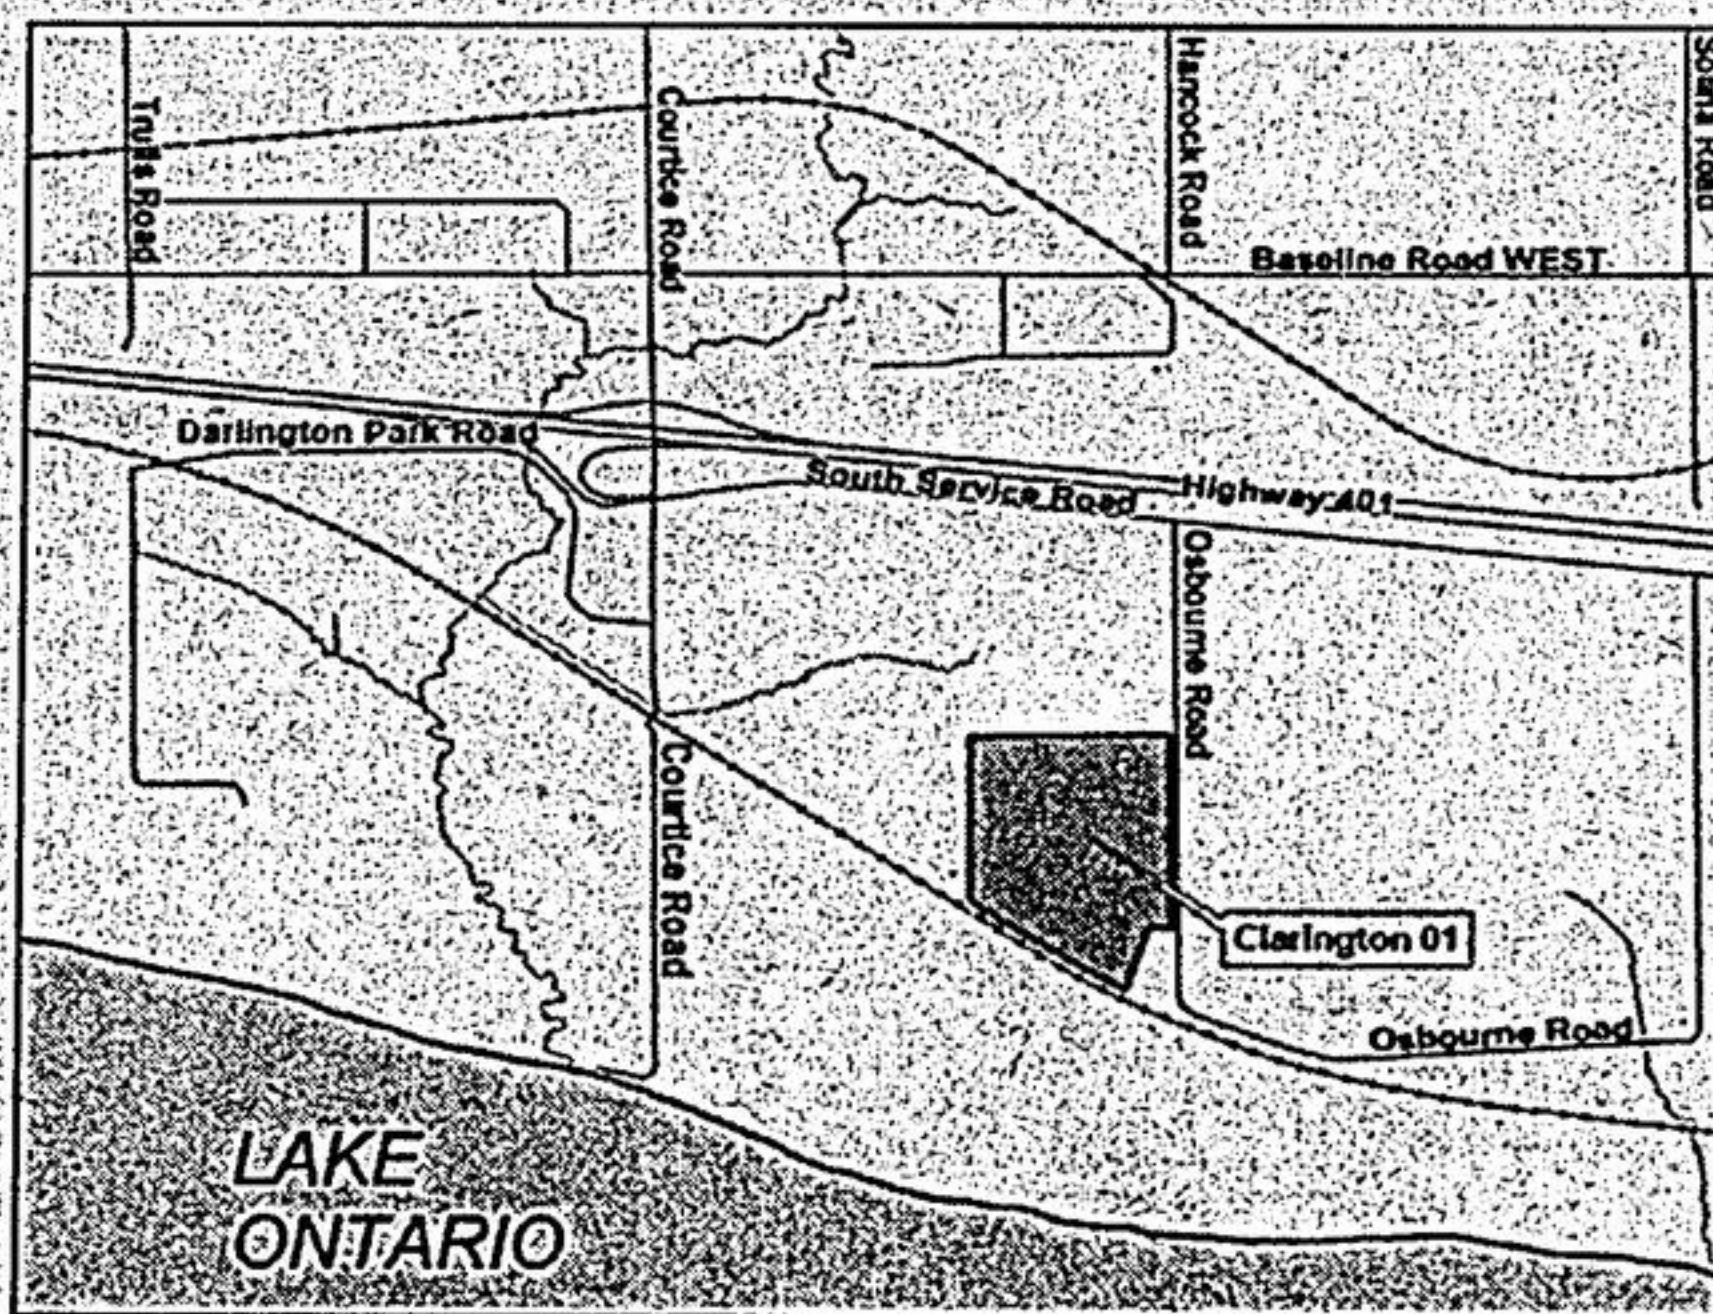

## Durham/York Residual Waste Environmental Assessment Study Public Information Session

### PUBLIC NOTICE

#### Consultants' Recommended Preferred Facility Site has been Identified

Durham and York Regions seek your input on the recommended preferred site for a new thermal treatment facility proposed to manage the garbage that remains after recycling and composting.

Durham and York Regions are participating in a joint study to find a better way to manage the residual waste (i.e. garbage) remaining after recycling and composting. Through the Joint Waste Management Group, the two Regions are addressing the social, environmental and financial impacts of this issue by way of an "Individual" Environmental Assessment (EA) under the Provincial EA Act. The site identification and evaluation process to identify a preferred site for the proposed facility is now complete. On September 25<sup>th</sup>, 2007, a preferred site was identified and released for public and agency review and comment. The site is located in the Municipality of Clarington, south of Highway 401, west of Osbourne Road and north of a CN Rail corridor, as illustrated in the map below. The recommended preferred site was arrived at following the evaluation methodology and criteria in the approved EA Terms of Reference which was developed with extensive public consultation and input.

A Public Information Session will be held in York Region on October 23<sup>rd</sup>, 2007, to present and discuss information and receive public input on the recommended preferred site. The evaluation process and the rationale behind the preferred site identification will be presented. A complete set of supporting documentation can be found on the Study website at: [www.durhamyorkwaste.ca](http://www.durhamyorkwaste.ca)

A Drop-in Information Session will be held from 4:00 p.m. to 7:00 p.m. A formal presentation will begin at 7:00 p.m. followed by a question-and-answer period.

Tuesday, October 23<sup>rd</sup>, 2007  
Roman Palace Banquet Hall,  
1096 Ringwell Drive,  
Newmarket, Ontario

You may register in advance of these sessions by calling 1-866-398-4423.

For more information on the Durham/York Residual Waste EA Study, please visit: [www.durhamyorkwaste.ca](http://www.durhamyorkwaste.ca) or call 1-866-398-4423.

### Memorial Park getting greener

You'll see more trees and shrubs along the creek in Memorial Park in downtown Stouffville after Oct. 13.

That's the day Love Stouffville, an initiative of local churches and residents, is enhancing Sangster's Grove in the park.

The event is a partnership between the Town of Whitchurch-Stouffville and the Toronto and Region Conservation Authority.

All residents are welcome to join the tree planters from 10 a.m. to noon. Shovels and gloves, as well as refreshments, will be supplied. Wear your gardening shoes and clothes if you want to take part.

The trees and shrubs are going in on the south side of the creek.

For more information, call 416-661-6600, ext. 5639.

### WAL-MART CORRECTION NOTICE

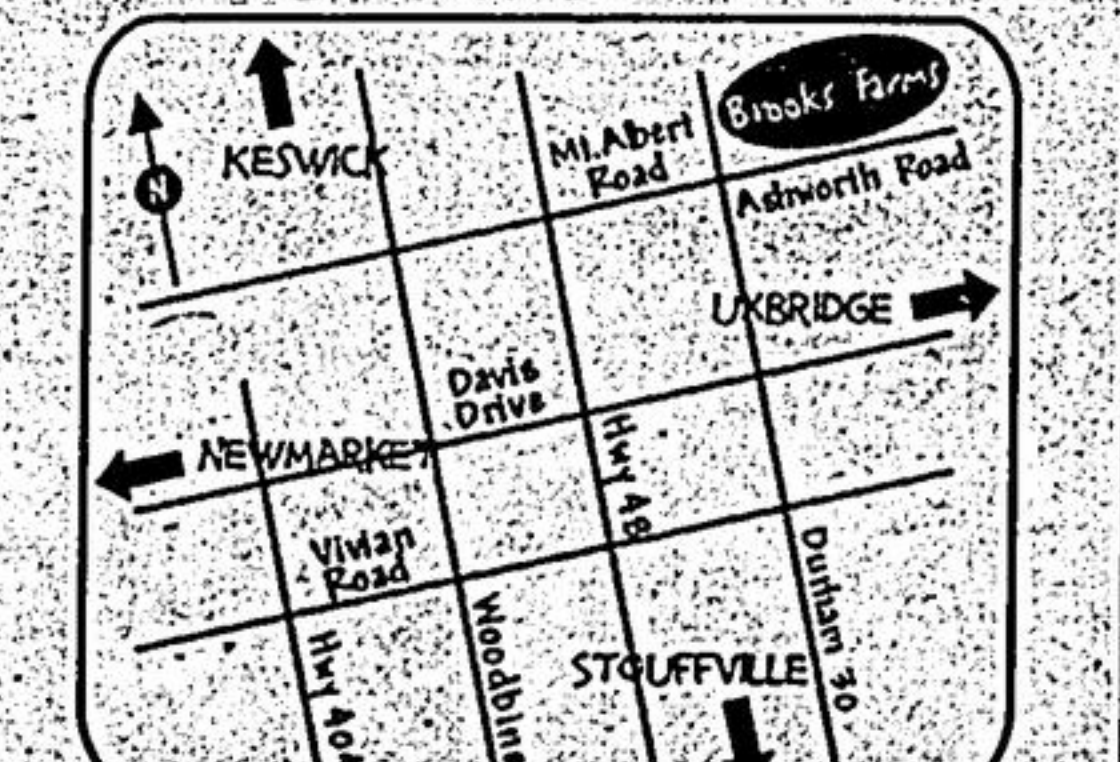

The size listed for the Bernat Chunky Yarn (#4414107/14/22/9...) advertised in our Anniversary flyer (ending October 4th) is incorrect. The correct sizes are 400g solids and 300g variegated.

We apologize for any inconvenience this may have caused.
