We've invested an additional \$2 million into recruiting and retaining a strong nursing workforce, ensuring that ours is a dynamic workplace and that our patients receive a higher level of quality care. In recent surveys, overall patient satisfaction at Southlake consistently earned ratings of over 94%. Additionally, results from our staff satisfaction surveys show that employees rate Southlake as a great place to work at a level that's 20% higher than those achieved at other participating hospitals in Ontario.

Making a name for ourselves worldwide, we are recognized for our groundbreaking work in cardiac care. And, to meet the increasing demands of our growing community, we have been expanding rapidly, with several major construction projects just completed or in the works, including a \$180-million redevelopment project, the start of construction on a new cancer centre, and the opening of a new medical arts building. All this and more means that it's an exciting time to be part of our vision for health care.
