

# FALL Home Improvement

For the right look in furniture fashion for your home, you must have the right piece, the right style and the right colour - exactly what's right for you, your home and your family.

Ville at Stouffville Fine Furniture understands the need to make your home perfect and she will help you pick the right style for your decor, match it with the right fabric for your family and then find the exact colour for the scheme you have planned. Since early 1993, Stouffville Fine Furniture has been providing top-quality Canadian-made home furnishings, everyday low pricing and first-rate service.

"Our goal and our promise is to create furniture fashion for you," says owner Ville Papas. "Our mandate is to create remarkable home interiors for our clients."

Following the trend, reds are infused with blue, making room for deep sophisticated colours, like burgundy tones with raspberry red and deep pink hues.

## Stouffville Fine Furniture

Top quality products from companies like Bermex, Bogdon & Gross, Villegois, and Décor-Rest are featured and new product lines are introduced regularly - most recently the Mary-Kate and Ashley Collection of bedroom furniture designed for girls of all ages.

Stouffville Fine Furniture is also a Simmons Sleep Centre Mattress Gallery specializing in offering a variety of quality, comfortable mattresses from Simmons, helping York Region residents sleep better. "We have at least 20 Simmons mattresses on

display at all times," says Ville.

And she urges customers to take advantage of the current sale now underway and to place orders in time for Christmas delivery.

Today, stronger than ever, the caring Papas family at Stouffville Fine Furniture is continuing to bring their client's homes to life through the relationships that they foster and the quality products they carry. They are located at 6327 Main Street. Take a virtual tour of the stylish 10,000-square-foot showroom at [stouffvillefinefurniture.com](http://stouffvillefinefurniture.com) or call 905-642-6774.
