

# Firefighters go door-to-door checking for smoke alarms

How's your smoke alarm, Whitchurch-Stouffville?

They have been mandatory equipment since March 2006 on every level of a home in Ontario.

Alarms were previously required to be installed between sleeping areas and the remainder of the home.

*Firefighters are going door-to-door providing fire safety information and free installation of smoke alarms.*

Whitchurch-Stouffville Fire and Emergency Services developed a smoke alarm program to ensure you meet the minimum requirements.

Firefighters are going door-to-door providing fire

safety information and free installation of smoke alarms.

Older residential areas were targeted first.

The department's goal of visiting 800 homes will be met by the end of the month, fire prevention/public education officer Jeff Bignell said.

"Schell Lumber's donation of smoke alarms made it possible to maintain our relationship with the public, allowing us to ensure public safety," he said.

The plea is simple during this, fire safety week.

"It is a known fact working smoke alarms save lives," he said.

"Please test your smoke alarms and ensure you have one installed on every level of your home."

For more information on fire safety week and smoke alarms, call 905-640-9595.
