

She'll run and play again

By Norm Cafik, M.P.
ONTARIO RIDING — I want to thank all of those who have written and telephoned expressing their concern for my daughter Yvonne, who was struck by a car on Monday, Jan. 11. Your prayers and good wishes are most sincerely appreciated by the family. Thank God she is coming along quite well, although she will be in hospital for some time. She suffered two broken legs and a severe laceration on one. The doctors have indicated that she will mend well and will be able to walk again. Due to the accident, and the large volume of mail that has been received in my office during the last month, I have found it quite impossible to keep up to date with my correspondence, and wish to apologize for the delay in my replies to enquiries. Fortunately, my office has now nearly caught up, and within the next week I anticipate being able to keep up on a day-to-day basis. I indicated in my last weekly Report that I would attempt to see as many people in the Riding as possible during the Christmas

Recess. Although I did not have an opportunity to meet everyone in the Riding, I was delighted with the number I did have a chance to meet and talk with. The House recessed on Friday, Dec. 18, and I returned immediately to the Riding and spent 5 days touring all corners of the Riding to visit and meet as many as possible. The first few days were spent in Jackson's Point, Sutton, Keswick, Pefferlaw, Uxbridge, Port Perry, and surrounding areas, and on Sunday, December 20th, I spent a most delightful afternoon as a guest of Chief Big Canoe, on Georgina Island, visiting the Indians and attending their Annual Christmas Concert. This certainly was one of the highlights of those few days, and I wish to publicly thank them and everyone in the Riding who gave me such a warm and generous welcome. On Jan. 4, I spoke at the Civic Luncheon in Oshawa, and on Jan. 8 I was the guest speaker at the Liberal Annual Meeting in Uxbridge. In the days between these two meetings, I spent most

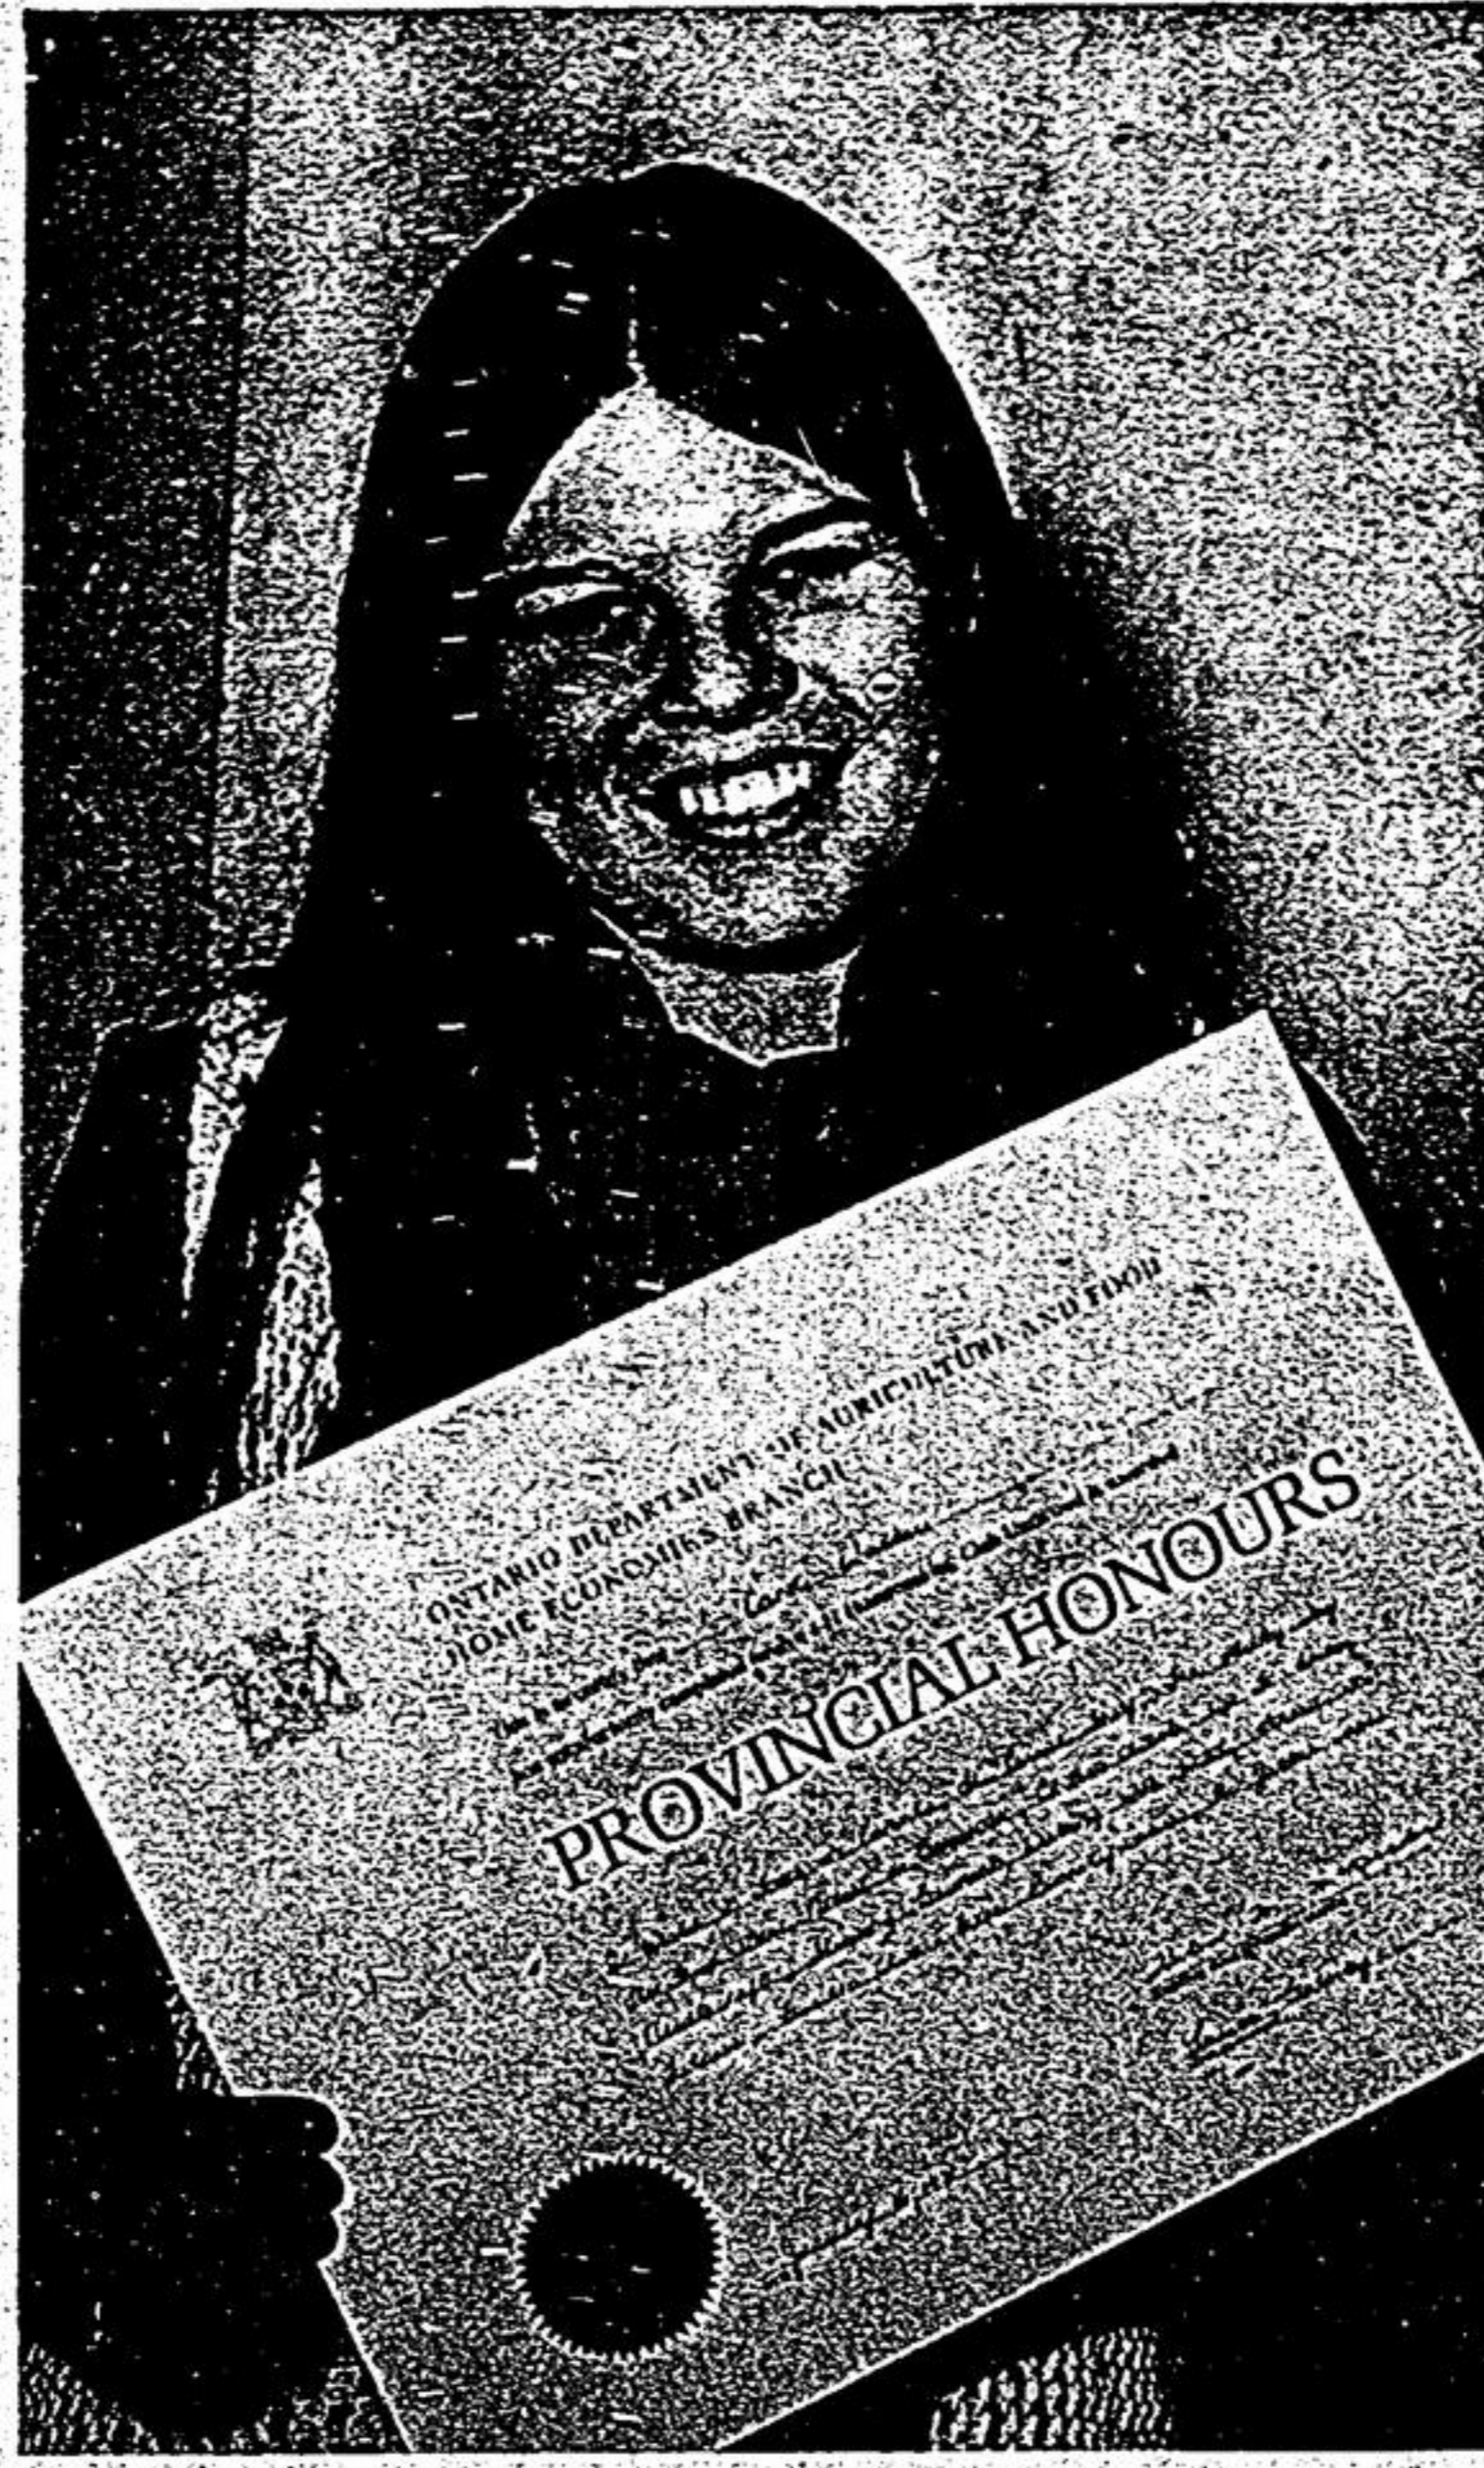

of my time in the Riding visiting other areas, mainly the southern section, meeting with as many constituents as possible, mostly in the plaza and business areas. I would estimate that I had the pleasure of meeting over 1,000

people during those days, and I found it a rich and rewarding experience. In view of the fact that I have not had an opportunity to cover the entire Riding during these visits, I intend to carry on with this approach at every opportunity.

Announce New Healing Substance: Shrinks Piles
 Excludes healing substance... A renowned research institute has found a unique healing substance with the ability to shrink hemorrhoids painlessly... In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most important of all—results were so thorough that this improvement was maintained over a period of many months. This was accomplished with a new healing substance (Bio-Dyne) which quickly helps heal injured cells and stimulates growth of new tissue. Now Bio-Dyne is offered in ointment and suppository form called Prohemorrhoid. Ask for it at all drug stores. Satisfaction or your money refunded.
