For Real Estate? MOOD

Have you ever been to a good movie or read a good book and days afterward remembered the "feeling" it conveyed to you That's the thing that made it outstanding and had an impact on your emotions.

This feeling is called "atmosphere" in a home. It is by far the most important factor involved when a prospective buyer is inspecting a residential property.

The personality of the owner usually expresses itself in the atmosphere of his home and it is the Realtor's task to match

that personal atmosphere to a suitable buyer. Perhaps a window with a magnificent view sets the tone of the house, or a treed

landscape and garden or even an unusual den or the interior decor. An owner can usually increase the sale ability of his home by "setting the stage" for

a buyer, through enhancing this personal atmosphere and then leaving the "direction" up to the Realtor.

Virtually all buyers have a mental image of the personality of the house they want. The Realtor has only to find a property to

match and the sale is made. FRED COOK REAL ESTATE LTD., REALTORS 16 Wellington E. - Markham - 294-2990
