## Petrolia here for two games

**STOUFFVILLE** - It's Stouffville vs. Petrolia in the O.M.H.A. Pee-wee finals.

The first two games in the Best of seven series are on Stouffville ice, Friday at 8.30 p.m. and Saturday at eight.

The local team travels to Petrolia for game three, April 10 and game four, April 11.

The remaining games will be worked out when the managements meet here, Friday.

## Team captains star

**STOUFFVILLE** - One victory away from a shot at the title. That's how the Ontario semi-final series stood after Stouffville Bantams chalked up successive wins here and in Huntsville. They were odds-on favorites for a clean sweep.

But Huntsville had other ideas and led by their brilliant club captain, Bradley Rhiness, they roared back, taking the next three in a row.

Rhiness was sensational here, Friday, firing three goals and assisting on another as Huntsville overpowered the local squad 9-4.

Huntsville were worthy winners but on the night's play, there wasn't a five goal spread between the teams.

Jack Holder, the diminutive but plucky puck-stopper in previous contest, turned a trifle stale when he needed to be at his best. He was replaced by Rick Marshman, midway through the third, but the damage had been done. Huntsville outshot Stouffville 25 to 18.

Huntsville's shooting was sharp. Their drives, some from difficult angles, were catching the corners with suspender-snapping accuracy. Stouffville were less accurate, missing the target by sometimes an inch and sometimes a mile.

Kevin Barrick, by far Stouffville's best front-liner, netted three. Jeff Roy counted one.

Captain Wayne Norton performed valiantly on the home defence, breaking up many a determined Huntsville rush and completing several rink-long dashes himself. He drew an assist on Barrick's initial tally and set up the second.

Huntsville's number 1 netminder, Rodney Hammond was forced to sit out the final ten

Claremont earned the right to advance by beating Schomberg. Alvinston put out Windham Centre, a village near Simcoe. In spite of the community's size, Alvinston has their own artificial ice arena.

**ARE YOU IN THE MARKET FOR A HARDTOP?**

Every Volvo has six steel pillars supporting the roof. Each one is strong enough to hold up the weight of the entire car.

Of course, this kind of strength isn't built into a Volvo just so it will hold up a lot of cars.

The Volvos we sell are built strong so they'll hold up a lot of years.

Exactly how many we can't guarantee. But we do know that in Sweden Volvos are driven an average of eleven years.

So come in, look at our Volvos and decide if you're honestly in the market for a hardtop. Or if what you really want is a hard top.
