**How do you know other rustproofers won't run out before their guarantee does?**

You don't. Someone who's been in the rustproofing business for two years might give you a lifetime guarantee. But his guarantee might last a lot longer than he will.

Ziebart has been in the rustproofing business 18 years. We pioneered rustproofing. And we've inspired a lot of imitators.

In the first place, our special compound is patented.

Secondly, it's not only what we use, but how we use it. Ziebart coats every critical area of your car. So there's no possibility for rust.

Finally, our process is so effective we guarantee it. If you have your car Ziebarted before it's been driven 3,000 miles, we'll guarantee it won't rust through for 10 years. No matter how many miles you drive it. We put it in writing.

And if that's not enough to convince you, just ask someone who's had it.

Because he's got a rustproof car. And our long guarantee. Which is our guarantee we'll be around a long, long time.
