ONTARIO HOUSING CORPORATION

The Ontario Housing Corporation will conduct a survey to determine the need and demand for senior citizen housing in Whitchurch-Stouffville.

A research team from OHC, the Ontario Government's housing agency, will estimate the number of senior citizens living in Whitchurch-Stouffville whose housing is inadequate or beyond their financial capabilities.

The demand in the area for housing on a rent-g geared-to-income basis will be determined from information gathered through advertising, applications and personal interviews.

The study was requested by the Council of the Town of Whitchurch-Stouffville.

It will include an assessment of economic trends, growth factors and current and future housing needs in the municipality. In this regard, interviews will be conducted with such community representatives as municipal officials, social and welfare workers and the clergy.

Interested persons are urged to obtain an application form from the municipal offices.

If the survey shows a need for senior citizens' housing, it will likely be an apartment building, although consideration is given to one-storey units which do not require stairways. Apartments for couples have a living room, bedroom, bathroom and kitchen. Apartments for single tenants have a bed-sitting room, bathroom and kitchen. All apartments are equipped with stove and refrigerator. Rent is geared to income and the minimum is \$32 a month, including services.

After considering the survey report, Council can initiate the program it outlines by adopting a resolution requesting OHC to go ahead.

Capital costs are shared by the Provincial and Federal Governments.

Housing on a rent-g geared-to-income basis is part of OHC's Home Ownership Made Easy (H.O.M.E.) program. Those receiving questionnaires are asked to return them as soon as possible to assist the survey team.
