

THE MAN AND THE PROGRAM

ENVIRONMENT Bob Lewis led one thousand people in their fight against the potential pollution of the Stouffville water supply. And won! The Premier has said his government has "laid down the law" on pollution. But the average fine for water pollution over the past two years has been only \$353. Domtar was fined \$1000. Domtar's profits after taxes were \$17,000,000. In the same period the Conservative government gave Domtar \$900,000 in loans.

MEDICARE Under the Conservatives, health-care in Ontario costs a family \$264. a year. The NDP plan in Saskatchewan costs a comparable family \$72. a year. The NDP Ontario health-care plan will save you 61% on premiums.

RAPID TRANSIT All three candidates favour a GO train and extended rapid transit but the Conservatives have had 28 years to turn promises into results. The NDP are committed to immediate action.

AUTO INSURANCE The NDP government in Manitoba has cut auto insurance premiums. The Conservative plan in Ontario fails to check rising costs and does not cover property damage. The NDP plan for Ontario will provide complete coverage and reduce premiums by 20%.

EMPLOYMENT Welfare is not a solution to unemployment. The NDP believes that worthwhile jobs must be made available immediately for all who need them. —More house-building starts, pollution control, municipal works projects and services to people... these are only some areas in which employment opportunities can be created in "our" Ontario.

RECLAIMING OUR ECONOMY In 28 years of Conservative rule, more and more of Ontario's resources, industries and jobs have fallen under the ownership and control of the United States. In order to reverse the trend, an NDP government will implement legislation to ensure that the interests of Canadians are of prime importance in the structure of our economy. Our province is rich in both natural and human resources and our future depends upon how well we develop both of them.

PAYING THE BILL The NDP has made several commitments to the people of Ontario. We've promised to lower the sales tax by 1% and to transfer much of the cost of education to the province, thus reducing local property taxes. This will cost money. But it will come from new tax fields which have almost totally escaped their fair share of responsibility. When the entire mining industry in Ontario paid \$34 million in taxes, one company alone made a profit of more than \$200 million after taxes. An NDP government will end the corporate tax writeoff, and apply the major portion (\$75 million) to the immediate creation of jobs. A capital gains tax, in keeping with the principles of the Carter Commission proposals, will further expand the tax base. The NDP stand on taxation is based upon the belief that everyone should pay his fair share... no more but certainly no less!

CAMPAIGN COSTS Bob Lewis' campaign cost is \$5200. Every cent is coming from voluntary donations from individuals in York North. All contributions are public. His opponents are obviously spending much more. They refuse to say how much or disclose their sources.

Bob Lewis NDP

A Member of the Provincial Legislature Needs Certain Qualifications. He must have experience: Enthusiasm alone is not enough. He must know what he is doing and be well informed about his riding and its problems. Bob Lewis has a long history of active involvement in urban and rural affairs in York North. He has been a Councillor in both the town of Stouffville and township of Whitchurch. He has served on public committees. He has a thorough knowledge and understanding of how government works.

He must be able to represent his riding effectively. Sincerity alone is not enough if results are not achieved. Our candidate, Bob Lewis, has a proven record of getting things done. Throughout his campaign, at public meetings and high school assemblies, he has stood out as the best speaker of the three candidates. His is a forceful, reasonable, intelligent voice that can and does influence government.

Bob Lewis will be an outstanding Member for York North.

VOTE FOR LEWIS — OCT. 21st.
