## Announce New Healing Substance: Shrinks Piles

Excessive healing substance proves to shrink hemorrhoids and repair damaged tissue.

A renowned research institute has found a unique healing substance with the ability to shrink hemorrhoids painlessly. It relieves itching and discomfort in minutes and speeds up healing of the injured, inflamed tissue.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most important of all - results were so thorough that this improvement was maintained over a period of many months.

This was accomplished with a new healing substance (Bio-Dyne) which quickly helps heal injured cells and stimulates growth of new tissue.

Now Bio-Dyne is offered in ointment and suppository form called Preparation H. Ask for it at all drug stores. Satisfaction or your money refunded.

Definitely. It made our '72 Polaris sleds quicker, safer and more comfortable.

For the past two years, Polaris racing machines have been using a specially designed aluminum torque convertor. It gives our guys the jump on competition. It transfers more usable power from engine to track. It lengthens belt-life. This year, the ATC is standard on every Polaris snowmobile. So are hydraulic disc brakes. Developed originally for our racing sleds, they respond quickly, smoothly, time after time after time.
