**It wasn't built in a day.**

Somebody didn't just say, "Hey, this is the year for little economy cars—let's build one," and there appeared a 1972 Volkswagen. Fact is, 24 years of Volkswagens preceded it. Each one a little better than the year before. The idea was that we had a good idea. So we stayed with it. And improved it. Thousands of times. That old bugaboo of car makers, new model bugs, was eliminated years ago. if there's one thing we learned about making economy cars, it's this: There's no such thing as an overnight success.
