SNOW!

skiroule time

When the snow starts piling up, be ready with Skiroule. Here's a machine that's five years out in front. Proof that performance doesn't have to look like a box. Skiroule is built closer to the snow for better balance. The center of gravity is down between the skis. Instead of between your knees.

The belly pan is scooped... like a big ski. So you skim instead of scrape. And super slide bar suspension keeps you on top... even in the fluffiest stuff.

All snowmobiles used to be pretty much the same... **then came Skiroule.**

Long service recognized

Allin Wells (right), R.R.1, Unionville, was honored recently, at a reception, marking his completion of 25 years' service with the firm of Rennie Transport Limited, Stouffville. He was presented with an engraved wristwatch by company president, W. T. Rennie. Since Oct. 15, 1946, when he joined the firm, Allin has driven close to one million miles. —Jas. Thomas.

Study town zoning bylaw

STOUFFVILLE Centre. The old zoning bylaws of Whitchurch and Stouffville have been under review for several months. At a recent meeting, councillor Mervyn Baker suggested that, before the public meetings are held, the Planning Committee might reveal decisions on individual applications. These applications, some of which have been in the files for months, have been considered in the course of the bylaw review. Certain areas in Town will be designated for growth, potential growth, or no development at all.

Members approved councillor Baker's motion, and a meeting will be held to dispose of the applications. No date has been set.

It is expected that York Region's Planning Commissioner, Murray Pound, will attend the public gatherings to explain the draft bylaw. Once approved by Council, the measure will be forwarded to the Ontario Municipal Board. They will arrange meetings and hear submissions from interested residents.
