# Seek public opinion

STOUFFVILLE - If questions by students, in the next few weeks don't be alarmed. you are asked some Subjects could include rather unusual - "How did the recent

blizzard affect your life?" "Which season of the year do you like best?" "Is the commuter train making any difference to life in Stouffville?"

Senior Geography students at Stouffville District Secondary School are studying local problems and making reports as part of their year's work. Some of the titles they have chosen are - The effect of weather on human behavior; the history of the Stouffville-Goodwood rail line; pets in Stouffville; traffic congestion; snow-mobiles in Whitechurch - Stouffville; airport services in the region.

They will obtain their information from local sources as much as possible. Then they will put it together, make graphs, distribution maps, and eventually draw their own conclusions.

So be prepared for the curious students. They are seeking personal opinions about life in this area and hopefully will learn a great deal in the process.

### Goodwood to grow?

GOODWOOD - The hamlet of Goodwood

may be permitted to cover the entire municipality. This is the recommendation of Uxbridge Twp. Planning Board, following completion of an over-all development report. Roy Hammond, representing the Board, told Council recently that he would like to see hamlet growth pursued more vigorously, particularly the Goodwood area. An Estate Development Plan has also been finalized. The report has been approved in principle by Council.
