## How important is maneuverability

## and styling?

7 H.P. Emperor II **\$669**

The ability of a riding mower to steer around trees and bushes isn't the only answer to maneuverability. The new Ariens Emperor II features quick response geared steering and knee-free operation. In addition the Emperor II has exclusive Flex-N-Float mowing action which permits scalp-free cutting even over rough lawns... and that's important when you're maneuvering near walks, driveways, gardens and terraces. And a separate clutch and brake mean you can drive the Emperor II just like a car, with both hands on the steering wheel. Ask your Ariens dealer about the Emperor II... he wouldn't give you a bum steer.

(19" blade)

## Compost shredder-grinders

The smaller the particles the faster your compost pile "turns over". And Gilson shredder-grinders have the extra-aggressive action that fine shreds clippings, vegetable tops, leaves and other garden waste into quick-decaying natural fertilizer. Reduces volume of lawn and garden wastes for easier disposal in burning-prohibited areas.

Gilson shredder features: ball-bearing mounted blade shaft, thick steel alloy blades, v-belt driven, with cast iron "flywheel" pulley, belt idler clutch for extra safety and convenience, extra portability with big diameter wheels, "golf cart" type handle.
