at this low price **54⁹⁵**

Over 1,300 cu. in. of air per second is the suction of this VIKING canister vacuum cleaner... and that's a lot of cleaning power for the money. In addition, your room stays clean longer because secondary filter on motor helps prevent dust from escaping back into room. No lugging, no tugging... your cleaner rolls on wheels and the top swivels 360° for total room coverage. No stooping... it turns on with a toe switch. Strong, enamelled steel housing has wrap-around bumper to help protect furniture from scratches. Comes with full set of accessories including flexible hose, one curved and two straight wands, adjustable rug/floor nozzle, upholstery nozzle, dusting and floor/wall brushes and crevice tool. With 18-ft. cord.
