The footbone's connected to the headbone.

Think about it. When you play tennis, you wear tennis shoes. When you walk, you wear good walking shoes. And when you work you wear proper footwear for comfort and protection.

Take a good look at your shoes. Make sure they're not getting run down at the heel. Change fraying laces. And check the soles to see that they're in good condition. Sure footwork begins with proper footwear.

The sure way to safety is Self-Defence.
