

DODGE Club Cab

Here's the '73 Pickup with the Hip-pocket.

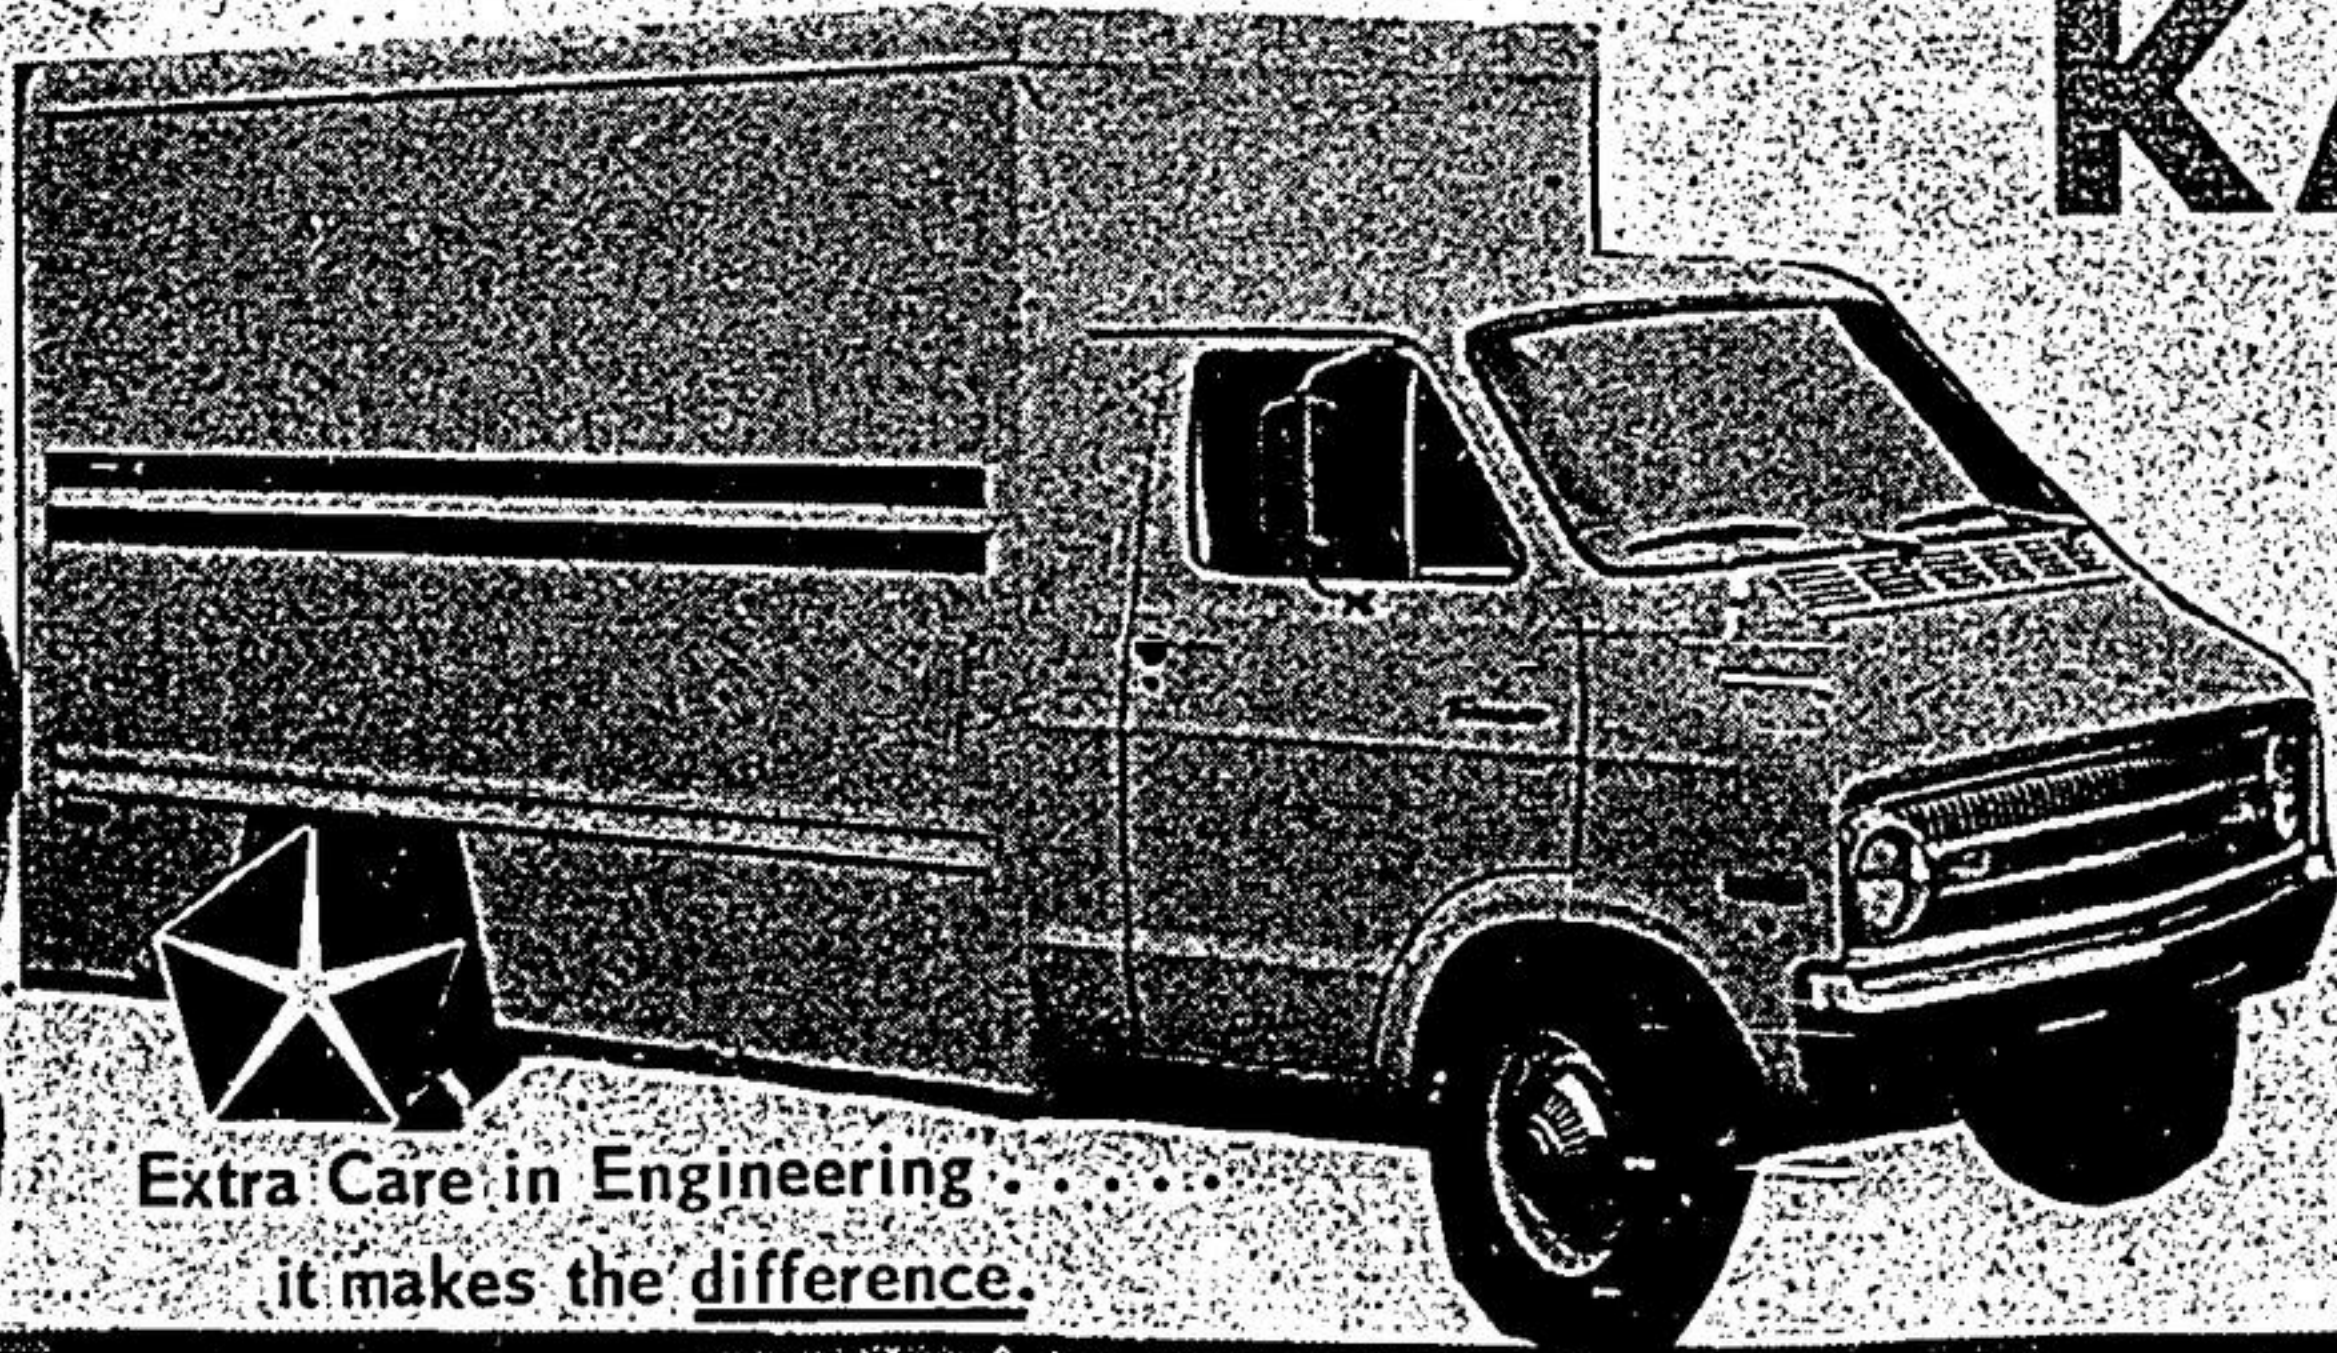

Dodge Club Cab, the pickup that solves the annoying problem of where to carry packages, equipment, and supplies when you have three people in the cab. The cab has been extended 18 inches and offers the pickup owner 34 cubic feet of carpeted extra storage space behind the seat. It is ideally suited to hold such things as grocery bags, golf clubs, chain saws, in fact anything you'd prefer to keep inside the cab rather than in the box. Your valuables are protected from the elements and the possibility of being stolen. The Club Cab offers optional padded vinyl covered shelves that fold down from each side of the storage area. Dodge Club Cab has all the extra care in engineering features that have made Chrysler built pickups so popular.

Dodge Club Cab is ideal for the weekend sport. It's versatile. It's convenient. It's a Dodge... and that's the difference.

It's great because it's a '73 DODGE

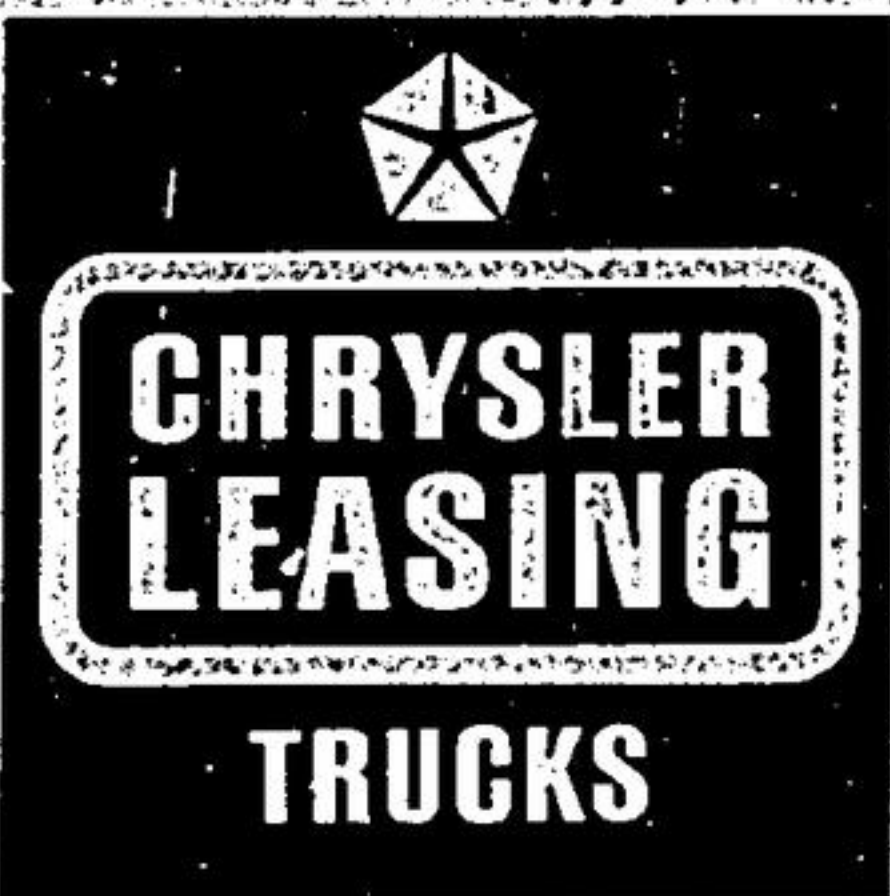

KARY VAN

Extra Care in Engineering... it makes the difference.

Kary Van gives the high cubic capacity and stand-up headroom of a parcel delivery truck but delivers the economy of operation and manoeuvrability of the compact. Which makes it just about perfect for a host of businesses.

Kary Van's inside dimensions are impressive. 6'2" high, 6'4" wide and 10' long. Cargo area is easily accessible to the operator from the driver's seat, or from the wide opening rear doors. The body is double-walled 4 feet high to protect the exterior body side panels from damage due to shifting cargo. Loading and unloading is easier too. The driver's compartment provides the comfort of a full foam bucket seat.
