**I've decided**

I'm voting Conservative because of the Liberal Government's ineffective economic policies.

Unemployment - 7.1%, Inflation - 5.3%. Increasing of taxation of industry as well as the private sector, make it increasingly difficult for us Canadians to control our own economy.

Mr. Trudeau's defense policies have been a disaster in the past four years.

For these reasons, I'm voting Conservative.

**Kevin Phippard, Student.**

**"The-Way-I-See-It" news...**  
**with Bob Hesketh,**  
**7 a.m. and 5 p.m.**

CFRB's Bob Hesketh has a happy talent for making news interesting with his own personal slant on the day's happenings. Of course, not even a Bob Hesketh can always make palatable reports on pollution, war and politics. Yet he strives to give listeners a small chuckle somewhere along the line in spite of the trend in news today.

On weekends, Bob Hesketh takes an informal editorial stance before the CFRB microphone to comment on just about everything. "I'm concerned about what happens to my country and the people who live in it," declares Bob. "Sometimes their stresses are taken lightly and sometimes seriously. However taken, they are at least expressed. I believe that is important."

This CFRB feature is labelled "The Way I See It" and here Bob Hesketh shines as a perceptive humourist with a keen wit. Always good listening.
