1. No Hormones are used in the raising of the animals.
2. Animals are given plenty of space and are happy (no feedlots!).
3. No antibiotics are used - if animals become sick and require antibiotics they are removed from the program.
4. Environmentally sustainable practices are used in the raising of the animals.
5. Animals are traceable back to the original farm and source.
6. Animals are not commingled with conventional animals.
