Speeding not OK on new streets

BY HANNELORE VOLPE
Staff Writer

Speeding traffic has become a concern of some residents near Hoover Park Drive between Hwy. 48 and Ninth Line in Stouffville.

Calls from residents indicate they're concerned speed limits are not being enforced and charges laid on these streets would be thrown out of court.

There was also a concern about street racing some nights.

The street is being patrolled and charges are being laid, whether the road is assumed or not, York Region Police Supt. Wayne Kalinski said.

'There is no licence to speed in York Region.'

Supt. Wayne Kalinski
York Regional Police

"There is no licence to speed in York Region," he added.

The speed limit is 50 km/h on Hoover Park Drive, whether signs are posted or not.

Although he has received no complaints about street racing in that area, police will increase their patrols, he said.

Hoover Park Drive is being reviewed by the town's engineering department, so the appropriate speed signage can be installed as soon as possible, senior bylaw enforcement officer Keith Saunders said.

The section of Hoover Park Drive between Weldon Road and Sandale Road may become a 40 km/h zone as two schools are in this area, he said.

He has also put in a request that speed signs be posted before the new extension of Millard Street to Hwy. 48 is open.

If you see excessive speeding or street racing, call York Region Police at 905-773-1221.

If you like walking, you will love Urban Poling!

- Burn up to 400 calories an hour (compared to 280 burned with 'regular' walking)
- Get a total body workout! Urban Poling involves 90% of all major and core muscles
- Increase your cardiovascular workout by 25%
- Reduce stress and weight on your hips, knees and other joints

What is Urban Poling?

The aerobic exercise of Nordic walking or "poling" is as effective as cross-country skiing, yet as easy, convenient and simple as walking (and offers more health benefits than jogging or biking). Since all ages and fitness levels can walk, all ages and fitness levels can enjoy the health benefits of poling!

Compared to "regular" walking, poling exercises much more of your muscles and drastically increases your fat burning and cardio workout without forcing you to walk faster or longer. In addition to intensifying the workout by engaging all core muscle groups, walking with specialized Urban Poling walking poles reduces stress on joints, provides extra stability and promotes better posture. By using your entire body, Nordic walkers work smarter (not harder) towards a healthier lifestyle.

Classes starting April 15th in Stouffville at the Lebovic Leisure Centre
