We Clear Acne!

Many people – teens and adults, men, women and adolescents – struggle with acne. The results of this struggle are low self-esteem, low confidence and a feeling of unattractiveness. MediSpa Clinic on Main introduces the Isolaz™, a breakthrough aesthetic platform using painless, light-based treatment. No pain, no drugs, results are immediately noticeable, and the procedure has been proven to significantly decrease "breakouts". Isolaz™ is the world's only aesthetic technology that combines vacuum with a painless laser: The Isolaz™ vacuum applies gentle pressure on the skin's pores while the painless laser helps destroy the acne-causing bacteria. This helps soften and remove blackheads, dead cells and other debris from deep in your pores resulting in radiant, clear skin that is purified from the inside out. Isolaz™ is quick, easy and painless. In fact, many people have their treatments done during lunch without any downtime. Additionally, patients have found their skin feels tighter and has a healthy radiant glow following this therapy. Isolaz™ is effective on all skin types. A recent clinical study shows that, in addition to acne reduction, 64 percent of acne patients who had not responded to oral medications, topicals and traditional lasers in the past had shown greater than a 75 percent clearance of acne lesions after treatment with the Isolaz™ system.

Painless Laser Hair Removal

Painless hair removal? That's what clients report time and again after being treated with our latest technology equipment. Hair removal is effective and safe, as the laser gently damages the hair follicle and prevents re-growth. Treatment is fast because of a large spot size and a super fast pulse repetition rate. There is minimal discomfort and the laser can be used safely on all skin types, including tanned skin. For the month of April, book 2 laser hair removal treatments and receive 2 free!

If you or someone you know can benefit from the confidence and self-esteem clear, beautiful healthy skin can bring, call MediSpa Clinic today.
