565 Volunteers

Do You Suffer From Psoriasis?
 If so, you're not alone. Psoriasis is one of the most common chronic skin diseases and it affects millions of North Americans - approximately 2 to 3 percent of the population.

Dr. Charles Lynde, a dermatology researcher in Markham at Lynderm Research, is conducting a clinical research study for Psoriasis. The study involves a topical treatment being researched for use in facial psoriasis. Dr. Lynde is looking for people with facial psoriasis to volunteer.

If you are 18 years of age or older and in good general health you may qualify to participate. Volunteers will receive study medication and study-related examinations by a dermatologist at no cost, as well as reimbursement for travel expenses incurred as part of the study.

If you're interested in volunteering, or to learn more about this research study, please call
Lynderm Research at (905)471-8011
