And then one morning, shortly after my third Isolaz session, I look at the mirror and realize something truly amazing. I am pimple free.
 "Out Damned Spot" Feature Story
 Marie Claire, June 2008

WE CLEAR ACNE!

Many people – teens and adults, men, women and adolescents – struggle with acne. The results of this struggle are low self-esteem, low confidence and a feeling of unattractiveness. MediSpa Clinic on Main introduces the Isolaz™, a breakthrough aesthetic platform using painless, light-based treatment. No pain, no drugs, results are immediately noticeable, and the procedure has been proven to significantly decrease "breakouts". Isolaz™ is the world's only aesthetic technology that combines vacuum with a painless laser: The Isolaz™ vacuum applies gentle pressure on the skin's pores while the painless laser helps destroy the acne-causing bacteria. This helps soften and remove blackheads, dead cells and other debris from deep in your pores resulting in radiant, clear skin that is purified from the inside out. Isolaz™ is quick, easy and painless. In fact, many people have their treatments done during lunch without any downtime. Additionally, patients have found their skin feels tighter and has a healthy radiant glow following this therapy. Isolaz™ is effective on all skin types. A recent clinical study shows that, in addition to acne reduction, 64 percent of acne patients who had not responded to

oral medications, topicals and traditional lasers in the past had shown greater than a 75 percent clearance of acne lesions after treatment with the Isolaz™ system.

If you or someone you know can benefit from the confidence and self-esteem clear, beautiful healthy skin can bring, call MediSpa Clinic today. Located at 6038 Main Street, MediSpa Clinic on Main offers the very latest techniques in advanced laser, medical skin care and aesthetics. Call 905-640-0092 today to make an appointment for your free initial consultation.
