

FALL REGISTRATION

DANCE SCHOOL ADDS MUSIC PROGRAM TO SERVE STOUFFVILLE BETTER

Newman Concepts in Dance expands, adding private and group music lessons to its extensive dance program.

Busy families in Stouffville and the surrounding area benefit from music and dance in one convenient location.

Newman Concepts in Dance has expanded to offer more diverse programs and convenient class times for the residents of Stouffville. Since opening in 1993 the goal of the school has been add new programs and improve existing programs each year. Over the summer, expansion to the facilities has made Stouffville's largest dance and music facilities even larger.

Along with the great care taken to ensure an excellent learning environment, several new programs will be offered in both music and dance. School Director Lee Newman says, "We are privileged to have some of the best teaching staff in the GTA. We are excited to have several new teachers join our faculty this fall. We have music teachers trained in everything from classical to jazz to pop who can offer students the types of programs best suited to what they want to do with their music."

On the dance side of things, we continue to have an outstanding recreational program as well as a strong, award winning competitive team. We are thrilled to be able to add ballroom/social dance to the program this year."

Expanded class choices save time for busy families

Between the pressures of homework, sports and family time, Newman recognizes that it can be over whelming for parents to try to fit in all of the activities, "Children are extremely busy these days. Saving 45 minutes to an hour per week commuting between activities could really help in the typical family's hectic schedule."

Parents now have the option to have one child in dance class while another is in a music lesson or schedule the same student's dance and music classes back to back, so they do not have to travel between locations or tie up another evening."

Large Variety of Dance and Music Classes

The programs offered this year at Newman Concepts in Dance are extensive. In music, private instruction is available in piano, vocal, guitar, violin

and percussion. There is also a pre-school music program for children aged 3-5, an introduction to music program for children aged 6-7, and children's choirs for ages 7-13.

Dance instruction is offered for children 2 1/2 years to adult. All major styles of dance are offered at the school, including ballet, jazz, tap, hip hop, lyrical, acro, modern, musical theatre and ballroom/social dance. There is a specialized kinderdance program (levels 1, 2 & 3) for children aged 2 1/2-6.

Free Reports Answer Common Questions

In an attempt to offer as much information as possible on having a positive experience in dance or music, Newman Concepts in Dance has started providing free reports containing useful information and tips. They are designed to help parents make choices for their children so that they will get the most benefit out of their music and dance classes.

Parents can then make an informed decision when choosing a music or dance school and the overall experience is more likely to be an-enjoyable one for both student and parent.

The music report covers everything from what ages are suitable for what instruments to how to make practicing easier. The dance report includes what to expect in year-end dance recitals and the most important things to look for in selecting a dance school. The parent's guide to kinderdance prepares parents for their children's important early years of dance training.

Due to the expansion of programs and teaching times, additional studio and staff, Newman Concepts in Dance will be accepting registrations now and throughout the early fall.

For more information contact the school at 905-640-9337, or visit www.newmanconceptsindance.ca for helpful information on getting started in dance classes or music lessons.
