You want your kids to have every opportunity to succeed—the chance to make the most of their abilities, to follow a dream. So you'll be happy to know that there are many exciting programs available to help students maximize their individual potential. The Student Success Program keeps students engaged in learning and helps them graduate. With Dual Credits—part of the Student Success Program—students participate in apprenticeship training and postsecondary courses while still in high school.

STUDENT SUCCESS PROGRAM

Courses count towards both a high school diploma and a postsecondary diploma, degree or apprenticeship certification. Dual Credits allow students to "try on" college, which is ideal for students who need learning opportunities outside of high school and who would benefit from a college experience.
