

Eateries gather near Walmart

From page 1.

it and come down, the more (a new) type of business might relocate," Ms LeBlanc said. "The main street doesn't fold up (at 5 p.m.). We do have a number of eateries and such open."

There will be more to draw people downtown later this year when the Lebovic Centre For Arts and Entertainment — Nineteen on the Park opens, and if the proposed farmers' market gets the go-ahead, that will be yet another reason for people to come downtown and for shops to open.

"It's all coming," Ms LeBlanc said. "Things are changing and they will change."

Two new larger retailers will be opening up in the SmartCentre complex Hwy. 48 and Sam's Way, Mr. Emmerson confirmed at the luncheon.

The two new tenants are Winners and Staples Business Depot. Construction, in the southeast corner of the site is expected to begin at the end of March.

Staples Business Depot and Winners are expected to open in September or October of this year.

Rona, which was to be part of the project, pulled out last year.

The development is anchored by Walmart and Canadian Tire/Marks Work Warehouse. Other retailers located in the complex include Dollarama and the Bulk Barn, while a host of eateries is now open including Subway, Thai Villa, Fulton Market Burger, Boston Pizza and Tim Hortons.

Sgt. Peppers Bar & Grill is under construction.

Government of Canada / Gouvernement du Canada

Health Canada Advisory on RetroFoam Insulation

Health Canada was recently advised that RetroFoam has been installed in a limited number of homes in Ontario. This product is prohibited for sale in Canada.

Health Canada is informing consumers that RetroFoam insulation is a urea formaldehyde-based thermal insulation, a type of insulation that has been prohibited for sale in Canada under the Hazardous Products Act since December 1980, as it may release formaldehyde gas into indoor air.

Health Canada issued a "cease and desist" letter to RetroFoam of Canada Incorporated, the Canadian importer of the insulation, to stop all importation and sale of RetroFoam in Canada. Health Canada also instructed Enerliv, the Canadian distributor of RetroFoam, to stop all sale, advertisement and further installations of the product and to call back any unused product. As a result of Health Canada's actions, RetroFoam is no longer available for sale or installation in Canada.

Health Canada will be communicating with affected homeowners to provide further details on how they can obtain Government support for having their indoor air quality tested.
