WOW!-Check-Out-Our-Organic-Produce-Section!

"We have **DOUBLED** the size of our **ORGANIC PRODUCE** Department! Come in and check out the Outstanding Quality, Variety & Value that is Now Available!"

Why choose Organic Produce?

- Organic food tastes better.
- Organic food production helps protect future generations. The average child receives approx. four times more exposure than an adult to at least eight widely used cancer-causing pesticides in foods.
- Organic food has higher levels of nutrients. There is now plentiful research findings that show organic food is far superior in vitamin, mineral and nutrient content.
- Organic food is free of artificial additives.
- Organic food production uses less energy than conventional food production.
- Certified organic means GE/GMO free.
