**WATER DISTRIBUTION SYSTEMS FLUSHING PROGRAM COMMUNITIES OF BALLANTRAE/MUSSELMAN'S LAKE AND STOUFFVILLE**

The Public Works Department reminds residents that it conducts a major watermain flushing program of the Town's water distribution systems twice annually.

The program began on or about Monday June 1st, 2009 in the communities of Ballantrae/Musselman's Lake and Stouffville and is expected to last for approximately three (3) weeks. The work is to be conducted daily, Monday to Friday, from 9:00 a.m. and 3:30 p.m.

The process involves the flowing of fire hydrants for several minutes. The program will remove accumulated sediment from the systems. Some temporary discoloration may occur. The presence of this sediment does not pose a health hazard. Should anyone experience any discoloration of water, please let the water run until it clears. We apologize for any inconvenience this may cause.

The program also allows Public Works crews the opportunity to check the operation of hydrants to ensure that they are in proper working order. Questions or concerns regarding this activity are to be directed to the Public Works Department at 905-640-1910 ext. 306.
