## FOCUS on Business

### EDMUNDS HOME IMPROVEMENTS WINTER INCENTIVE PROGRAM NOW AVAILABLE!

Are you considering any of the following home improvement projects: replacing windows, doors, eavestrough, siding and/or reroofing?

Edmunds installs all of these products through the winter season, working around harsh weather, as required. Owners, Steve & Kathryn Gibson, point out that most installations are comfortably applied at temperatures above minus 6 Celsius.

For any work booked for installation between Jan 15/10 and March 15/10 Edmunds is offering their lowest prices of the year. Combined with the 15% Government tax credit (valid on installations prior to Feb 01/10) and the potential for energy rebates, your opportunity for value has never been better.

Visit our showroom to view high quality Canadian products, such as our recently expanded door lite collection from "Trutech". Mix and match coming and glass options to create a custom look that meets your personal needs for both light and privacy.

Our recently upgraded window displays from "Vinylbilt" and "Ostaco" feature the latest window features.

For greater durability & the option of a stained wood look, we now carry a full line of fibreglass doors from "Ostaco".

Ask about triple pane glass for added energy

savings and sound reduction. As always, we offer the latest line of "architectural" shingles from CRC.

For the ultimate in performance and aesthetics check out our latest addition of steel roofing profiles from "Decra". This

high-end product comes with a proven 50 year warranty, and is available in shake, shingle or tile profiles.

So why suffer through another winter with drafty windows, or risk the chance of a leaking roof from melting snow?

Call the experts at Edmunds Home Improvements today, for a free estimate, and enjoy both peace of mind and savings.

Established in 1947, Steve and Kathryn Gibson took over the "Edmunds" name in 1989 and have worked hard to provide a wide selection of quality products and high standard of professional service.
