

What people are saying about

Markham Stouffville Hospital

I would like to take this opportunity to thank the board of directors, staff and volunteers of Markham Stouffville Hospital on the occasion of the hospital's 20th anniversary celebration. May the outstanding tradition of excellence and care exemplified by your commitment and dedication to the patients you serve continue for generations to come.

Frank Scarpitti, Mayor of Markham

Speaking on behalf of the residents of Whitchurch-Stouffville, we are proud of what Markham Stouffville Hospital has achieved over the past 20 years — not only on its growth but also on its ever increasing capabilities for the treatment of new viruses and undertaking surgeries not envisioned 20 years ago. We are justifiably proud of everyone connected with the hospital — from the surgeons, doctors and nurses to the porters, kitchen employees and, of course, our dedicated volunteers and numerous benefactors — in other words, all who make up the fabric of Markham Stouffville Hospital. This is our community hospital.

Wayne Emmerson, Mayor of Whitchurch-Stouffville

Congratulations on 20 years of wonderful service in our community! Over the years, Markham Stouffville Hospital and its staff have done great work and I look forward to watching the hospital expand in the upcoming years.

Dr. Helena Jaczek, MPP, Oak Ridges-Markham

I want to commend the physicians, staff and volunteers at Markham Stouffville Hospital for providing excellent, compassionate care to the people of Markham and Stouffville for the past 20 years. This is an exciting milestone for the hospital and I want to wish them well as they forge ahead with the much-needed expansion. This expansion is very exciting as it will enable the doctors and nurses to continue to provide top quality health care to meet the needs of our growing communities in the future.

Paul Calandra, MP, Oak Ridges-Markham

Since opening 20 years ago, the tremendous growth and development of Markham Stouffville Hospital has mirrored that of the surrounding community. With its stellar reputation, our hospital has contributed greatly to the wonderful quality of life we enjoy here in Markham. Later this year, when the expansion project truly gets underway, 2010 also represents the beginning of more remarkable years to come. I extend heartfelt congratulations for all that has been achieved and deepest thanks to president Janet Beed and her dedicated staff for their compassionate and dedicated service to our community.

Michael Chan, MPP, Markham-Unionville

I want to congratulate the staff at Markham Stouffville Hospital on their professionalism and obvious dedication to duty that was displayed from the moment I entered the hospital until I was discharged. I am not the ideal patient and do not like medical facilities. I was treated with such kindness and attention during my overnight stay in the ward that I thought I must have been mistaken for a high level VIP. I cannot express my appreciation enough to the staff at Markham Stouffville Hospital.
