

# Downtown Stouffville

## Why Shop Downtown?

We love Mom and Pop shops! We love their attentive customer service, their unique merchandise and the special atmosphere of their stores, as opposed to the cookie-cutter retail chains that all seem to sell the same thing. We also love our heritage - downtown Main St. is the cultural centre of our community.

Many people consider shopping on Main Street "experience shopping" because you interact with people and a community, instead of frantically

hunting for rock bottom prices. Shopping on Main Street means finding merchandise that is infused with local heritage that can't be found anywhere else. It's about making a connection. It's also about keeping the entrepreneurial spirit alive and helping local businesses compete against Big Box retailers. Choosing to shop Main Street lets these businesses know you appreciate them and want them to stay.
