

Who installs your windows is just as important as who makes them.

That's why Casa Bella developed an **"Installation Guide"**, outlining what you should be looking for when deciding on a window and door company. And your **FREE** copy is available on our website casabellawindows.ca.

At Casa Bella we only use our own factory trained installers. We do not subcontract installations! As part of the Alpa Lumber Group, we have over 60 years of experience in the renovation market. Casa Bella designs, extrudes, manufactures and installs all our window & door products so you'll be assured of dealing only with us, throughout your project.

Casa Bella is Highly Recommended...

"After a lot of searching, we found the best! Excellent installers who really know what to do. They did a great job, with no mess during the install and they disposed of my old door and windows. I would really recommend that you look in their showroom on Airport Road just south of Steeles."
