

*Class Environmental Assessment  
to address Outfall Capacity Limitations at the  
Duffin Creek Water Pollution Control Plant*

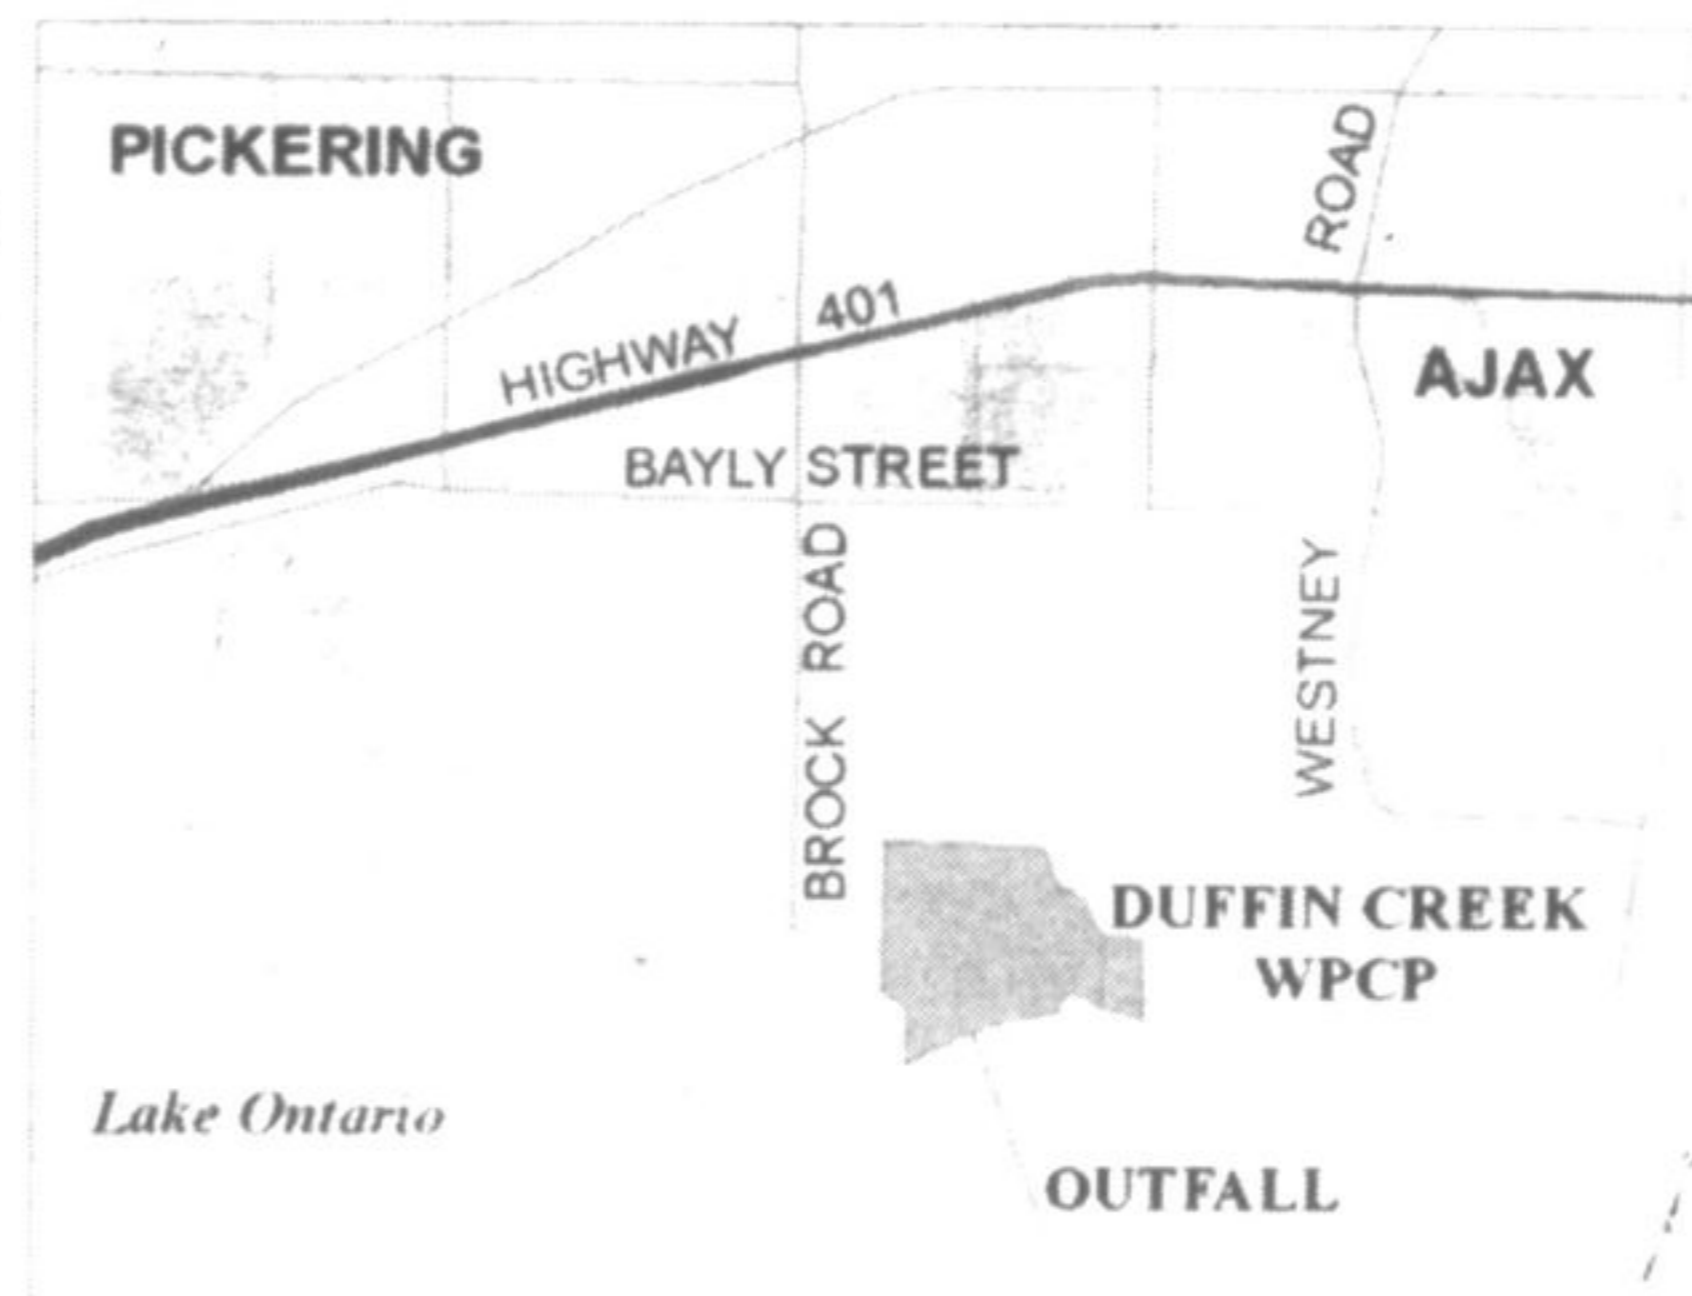

**NOTICE OF STUDY COMMENCEMENT**

In 2006 the Regional Municipalities of York and Durham completed a Municipal Class Environmental Assessment that identified the preferred strategy for expanding wastewater treatment capacity at the Duffin Creek Water Pollution Control Plant (WPCP) from a capacity of 420 million litres per day (MLD) to 630 MLD. Construction of the expansion is underway, with completion scheduled for 2012.

Treated effluent from the WPCP is discharged via an outfall that facilitates rapid assimilation of the clear treated effluent into Lake Ontario. An assessment of the existing outfall determined that it will reach its capacity at approximately 560 MLD, which will limit the operating capacity of the expanded WPCP. The Regions are working to resolve the outfall capacity limitations prior to WPCP flows reaching the lesser rate of 520 MLD.

**The Study**

York and Durham Regions are jointly initiating a Municipal Class Environmental Assessment (Class EA) to identify the preferred method of addressing the future capacity limitations of the existing outfall. The study will follow *Schedule C* of the *Municipal Class Environmental Assessment* process (as amended October 2007), and will satisfy the requirements of the *Environmental Assessment Act*. The Class EA will define the issues to be addressed, identify feasible alternatives, evaluate the technical, natural, social/cultural, and economic impacts of the alternatives, and recommend a solution. The Class EA process provides members of the public and agencies with opportunities for input and ensures that all comments are appropriately addressed and documented for the public record.

**The Consultation Process**

Public and agency consultation is a key component of the Class EA process and the submission of comments is encouraged at any time during the study. Comments may be submitted via the project website at [www.durham.ca/OutfallEA](http://www.durham.ca/OutfallEA) or via email at [info@outfallEA.com](mailto:info@outfallEA.com) or by contacting either of the Regions' Project Managers directly at:

**Mr. Rich Tindall, P.Eng.**  
**Project Manager**  
Regional Municipality of Durham  
605 Rossland Road East, Box 623  
Whitby, ON L1N 6A3  
Phone: 905 668-7711, Ext. 3547  
Toll Free: 1-800-372-1102  
Fax: 905 668-2051

**Mr. Wayne Green, P.Eng.**  
**Project Manager**  
The Regional Municipality of York  
17250 Yonge Street  
Newmarket, ON L3Y 6Z1  
Phone: 905 830-4444, Ext. 5049  
Toll Free: 1-877-GO4-YORK  
Fax: 905 836-4590

As part of the consultation process, the Regions are compiling a Project Contact List of parties that are interested in receiving further information on the Class EA. Please submit your contact information if you wish to be added to the Project Contact List. Public Information Forums (PIFs) will also be held during the Class EA to present information and receive comment. Advance notice of these PIFs will be published in local newspapers, posted on the project website and issued to those parties on the Project Contact List. Key Class EA documents will also be posted to the project website, and reference copies will be available at the Central Branch of the Pickering Public Library and the Main Branch of the Ajax Public Library.

All correspondence will be maintained for reference throughout the project and will become part of the project record. Under the *Municipal Freedom of Information and Protection of Privacy Act* and the *Environmental Assessment Act*, unless otherwise stated in the submission, any personal information such as name, address, telephone number and property location included in a submission will become part of the public record files for this project and will be released, if requested, to any person.

**TOP BANANAS**
