

STOUFFVILLE SECONDARY PHOTO

Triple jumper Olivia Bolender and Greg Barker of Stouffville Secondary qualified for this week's provincial high school track and field championships at York University last week.

# Spartans jump, throw to OFSAA in Sudbury

Greg Barker did not improve on his personal-best toss of 42.39 metres in the discus at last week's Central Region Track and Field Championships at York University.

However, the Stouffville District Secondary School Grade 9 student established a meet record in that discipline for midget boys after recording a toss of 42.01m to finish first.

Just as important, Barker's result enabled him to claim a berth in this week's Ontario Federation of School Athletic Associations championships that begin today in Sudbury.

*... the Stouffville District Secondary School Grade 9 student established a meet record in that discipline for midget boys.*

Barker's toss eclipsed the mark of 40.83m set by Adam Kovacs of St. Joseph's (Barrie) in 2007.

In addition to winning the discus, Barker finished second in the midget boys' shot put and third in javelin.

In both of those events, he recorded

personal-best marks of 37.94m in javelin and 13.97m shot put.

By placing in the top three, Barker will compete in those events at OFSAA.

Steve Jimmo, Spartans head track and field coach, feels Barker will do well at OFSAA. Especially in the discus.

"I've looked at a couple of other results from other athletic associations in the province and Greg should finish in the top five in discus and shot put," Jimmo said.

As for the javelin, Jimmo feels Barker might be a long shot even though he recorded a personal best at the Central Regionals and did it by adding six metres more to his previous best mark.

Barker wasn't the only Spartan entrant to fare well at the two-day meet.

Olivia Bolender will join Barker at OFSAA after finishing third in the senior girls' triple jump.

Bolender also finished seventh in the long jump.

In the 2000m open boys steeplechase, Michael Bourgeois finished ninth.
