### Clarkson Auctions and Movers Inc. Fine Auctions since 1989. Moving, Packing, Recycling.

Thank you once again Whitchurch Stouffville for voting us "Your Number One Mover. There are many excellent movers in our area that do a good job and are probably just as deserving of this award as we are. Did you know that the moving business in Ontario is unregulated; too often we hear the horrors of someone's past move that went wrong. The problems range from damaged goods, extra charges, sometimes your mover doesn't show up on time or not at all. We strongly recommend you pay a little more and hire a well known reputable mover whether it's us or one of our competitors.

Clarkson's home moving services has very serious standards, owner Tom Clarkson and meticulous staff take a firm stand when it comes to getting your contents moved to your new location. Every customer we move receives a firm flat rate quote during our first visit in your home, you know the final cost before the job is started. We are often asked for phone quotes, we do not provide that inaccurate method of pricing someone's move, how can one give an accurate quote without seeing the contents or the working conditions?

Through the course of an Estate or Family Move, Business Expansion or Downsizing, you require experience, reliable equipment & properly trained staff. We are truly your "one-stop" shop.

A good feeling does come from customer satisfaction and knowing that our clients appreciate the many extras we provide along the way.
