Stouffville Family Eye Care
Dr. Agarwal & Dr. Jessa

Don't wait until you have lost some vision. Save your sight, call to book your appointment!

WHEN WAS THE LAST TIME YOU HAD A COMPREHENSIVE EYE EXAM?

Vision loss can happen to anyone, at any age. Fortunately, 75% of vision loss can be prevented or treated if diagnosed early. Just because you can see well or do not need glasses, does not mean your eyes are healthy. Many eye diseases such as glaucoma and macular degeneration do not have symptoms until end stage. At Stouffville Family Eye Care we have experienced eye doctors along with the latest technology in order to detect and manage eye disease. We see children starting at 6 months of age.
