

## Sewer work exempt from noise bylaw

Installation of a sanitary sewer at Ninth Line and Main Street will begin tomorrow.

The contractors were granted an exemption from the town's noise bylaw by council this week, which means work will be continuous and go through the night from Oct. 25 to 28.

The noise bylaw prohibits construction-related noise all day Sunday, on statutory holidays and daily between 7 p.m. and 7 a.m.

By giving Mardave Construction an exemption, the work will be done faster and more safely due to lower traffic volumes, according to the Oct. 15 council report.

Paid duty officers will be present at all times that construction takes place in the signalized intersection, according to the report.

The sanitary sewer installation is part of

the Ninth Line jog elimination that is expected to be wrapped up in the fall of 2014.

## Issues remain at Rupert Ave. project

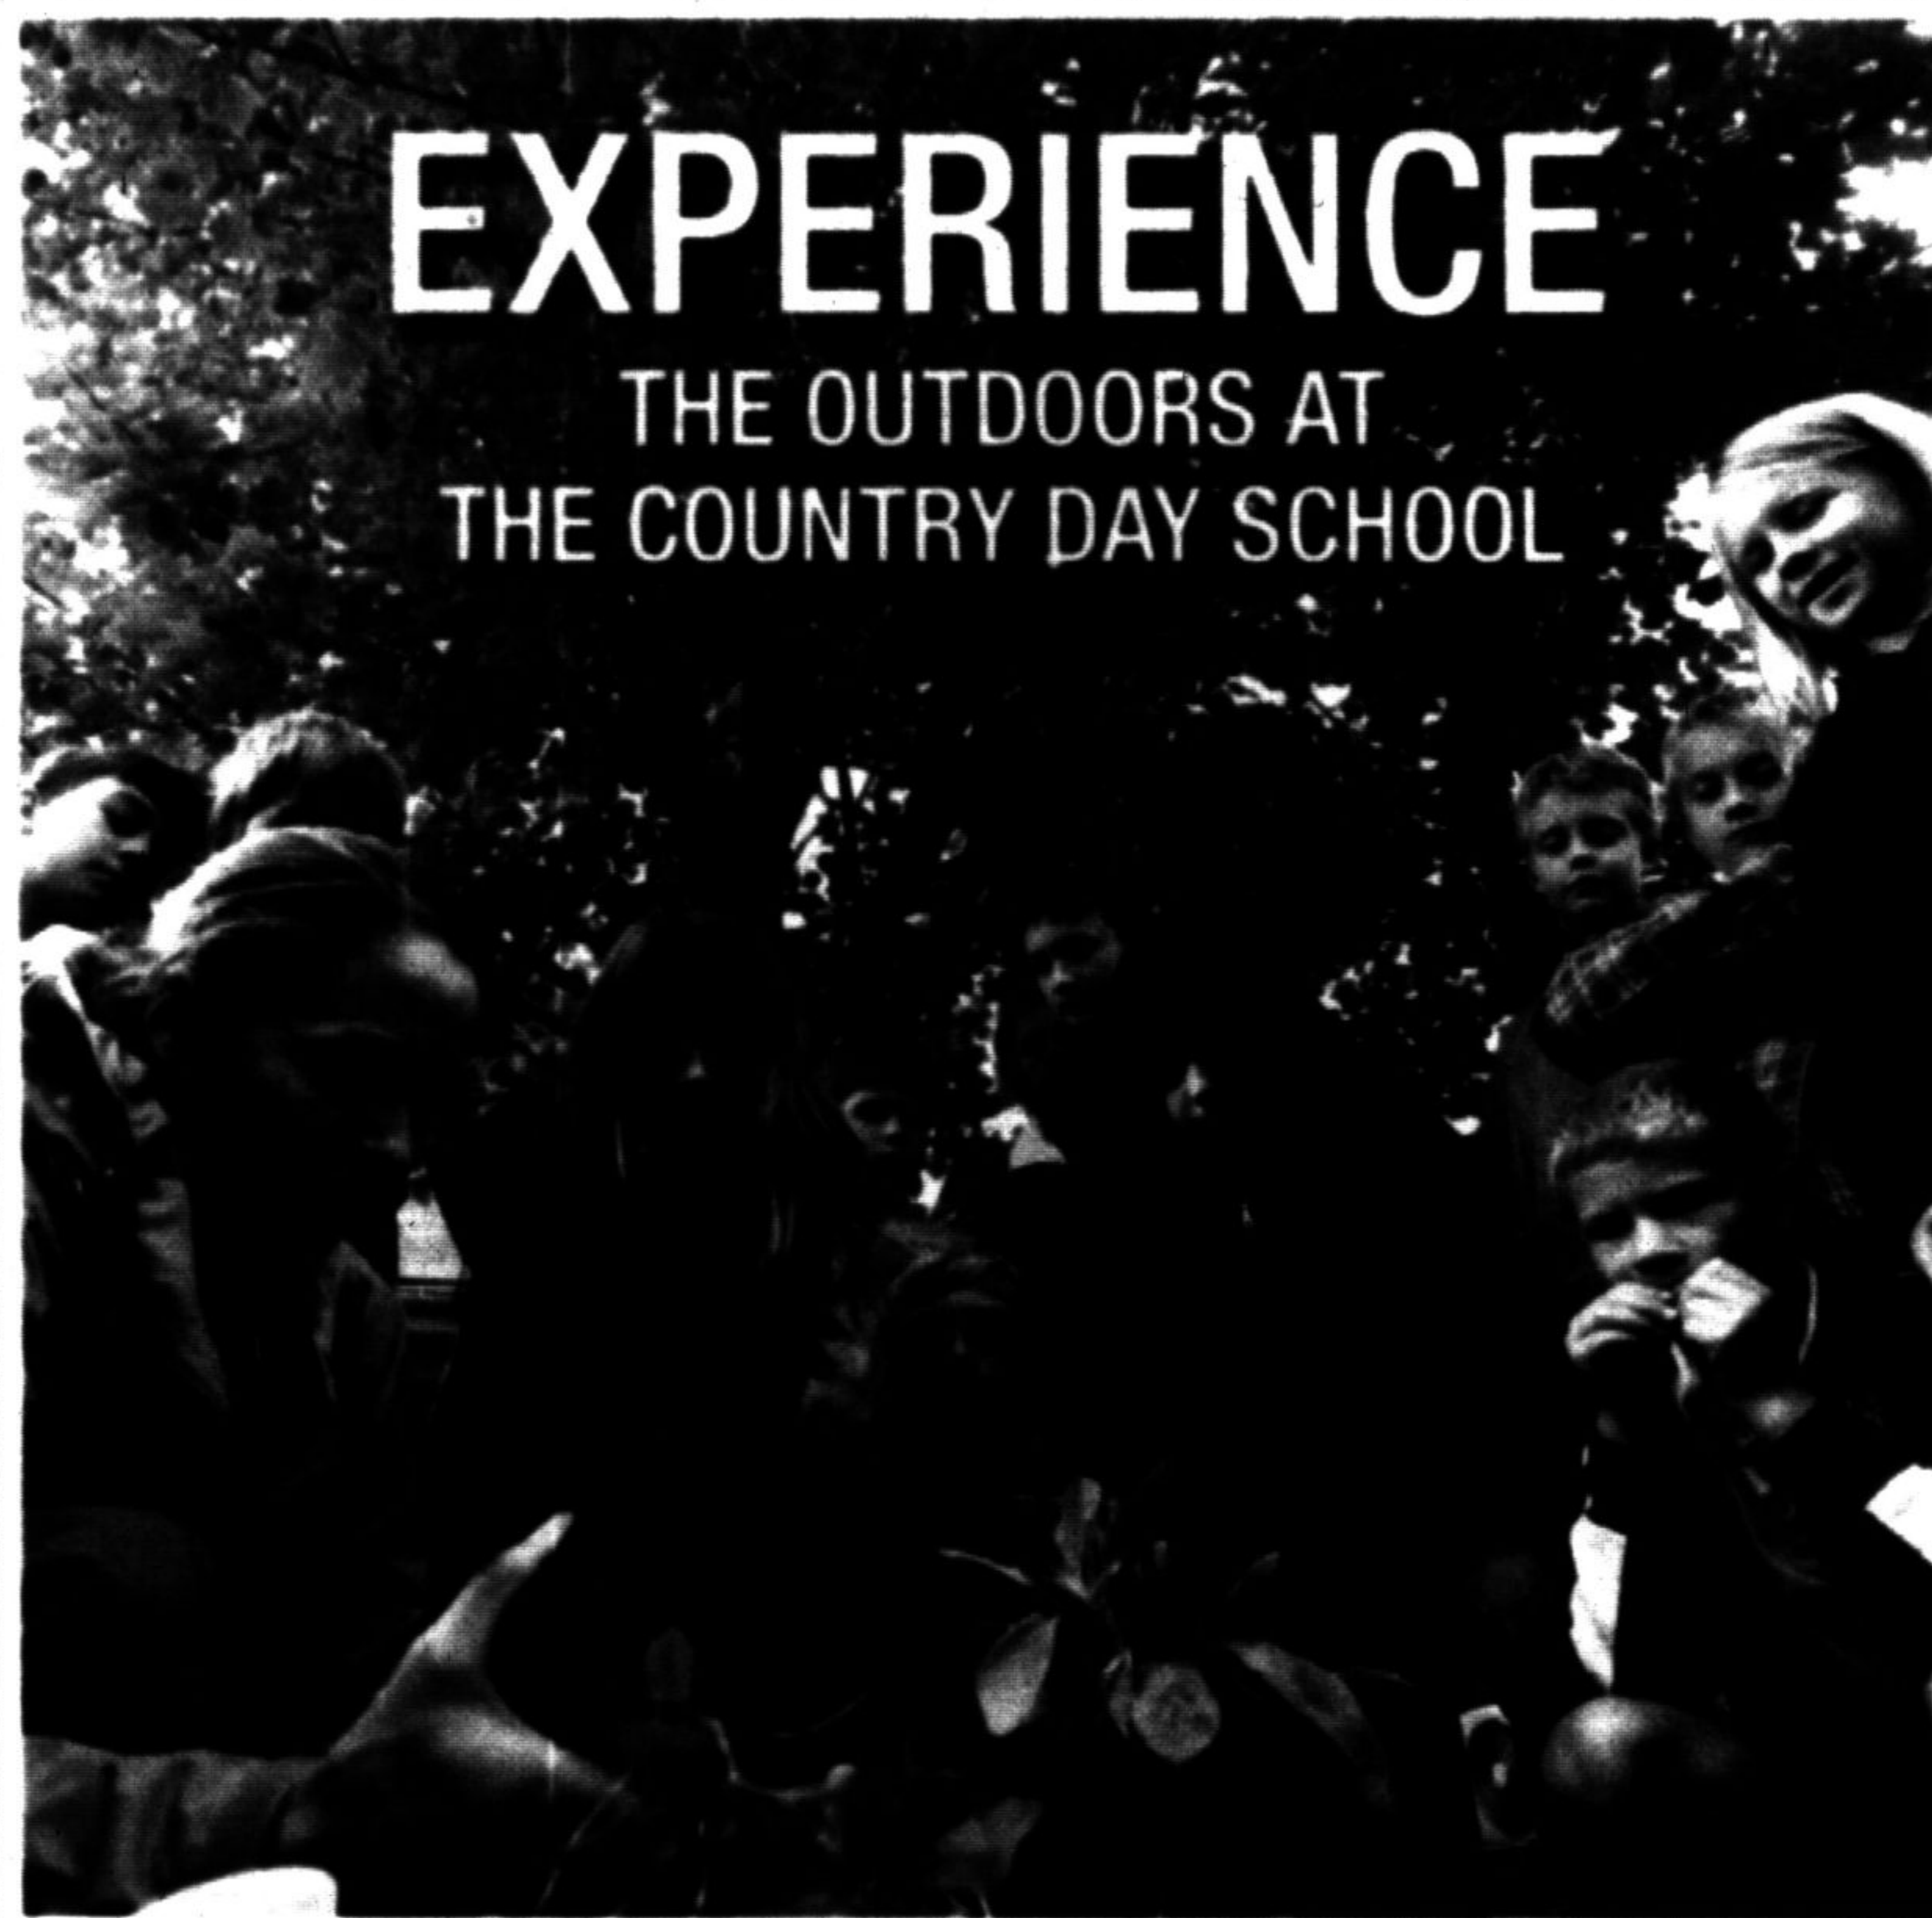

The owner of Glengrove on the Park has had its site plan control agreement extended for a year, with an amendment.

The modification deals with concerns related to the maintenance and management of the property at 465 to 481 Rupert Ave.

In mid-2012, the project's site plan agreement for a 154-unit seniors' apartment building was executed. It was submitted for approval in 2006 for the former Parkview Home site.

The owner has not completed the full building permit application and has not resolved a number of issues required before development can start, according to a council report.

- Sandra Bolan

# EXPERIENCE

THE OUTDOORS AT  
THE COUNTRY DAY SCHOOL

Imagine running through rolling hills and wetlands, locating fossils, butterflies and hummingbirds. Reading poetry under an oak tree. Launching a rocket into the big blue sky. Now imagine teachers aren't ringing the bell to get you to come back in, they are out there with you, doing all the same things. It's a hands-on way for our students to learn about the environment, in the environment. Is the sky the limit? Not around here it isn't. It simply gives our students a massive playing field to seek out their own magical answers to the question.
