

At The Chamber

We Love to Help Businesses Succeed ...

September 19, 2012

Whitchurch Stouffville Chamber of Commerce

The Whitchurch Stouffville Community Energy Cooperative (WSCEC) is very pleased with our Chamber membership. We have received excellent value for our membership.

The WSCEC is developing a new project and a new business concept for community engagement with our renewable energy cooperative plans for solar energy production on the Clippers Sportsplex rooftop.

The Whitchurch Stouffville Chamber of Commerce has offered valuable, focused and timely support for our organization. From our first successful networking meeting where we connected with local business people to the numerous well qualified introductions that have been made to us for investment and membership, the Chamber has delivered excellent value for our organization.

Edward Nelles initiated, on behalf of the Chamber, a personal meeting to learn details of our organization to be able to add value for the Coop. Subsequently Edward connected us with an overseas visitor and investor who had a business interest in the Coop. Edward also provided other valuable input to support our business.

The Chamber strives to educate and inform its membership. An excellent example is the breakfast meeting featuring the Ontario Minister of Energy. This breakfast meeting will be highly valuable to our organization as our renewable energy project is governed by the Energy ministry.

On behalf of the WSCEC, I would like to congratulate the Chamber on the fine work that it is doing; connecting, informing and supporting local business in our community.

Sincerely,

Tom Schmidt
Vice President
Whitchurch Stouffville Community Energy
Cooperative

To whom it may concern,

We were introduced to the Chamber at one of the CCBC events last year. We had a really great conversation with Edward and decided to join the Stouffville Chamber of Commerce.

LEVEL5 is a management consulting firm in Toronto. We recently made a strategic decision to explore the China market. We shared our plans with Edward, and he quickly put together a few recommendations. Since last year, the Chamber has helped us achieve the following activities:

- Organized a seminar that focused on China economy development and business opportunities.
- Met with several local business owners who are interested in exploring business opportunities in China
- Connected us with a few industry experts in the region to discuss the market opportunities in both China and Canada
- Hosted a special tour to welcome our partners in Shanghai.

As experienced business leaders the Chamber fully understands our goals, and will always do its' best to make sure that our needs are being met and exceeded. The caliber of its' in-depth business knowledge along with his caring/nurturing personality impressed us tremendously. We had a really impressive and positive experience since we joined the chamber.

Thank you Chamber! We greatly appreciate everything you have done for us and look forward to exploring many other opportunities going forward.

Warmest regards,

Hua Yu
Managing Partner

As Canada's largest farm to fork duck supplier, we have lived, worked and grown in the north east corner of Whitchurch Stouffville for the past 60 years. Although we have decades of experience behind us, our membership in the Chamber of Commerce has been a wonderful opportunity to connect with our neighbours, share our story and focus on developing our local business with and within this vibrant community.

The Chamber has also provided us with support beyond our borders offering advice, making connections on our behalf and creating opportunities that we would not have had without its support.

The dedication of the Chamber staff and their enthusiasm for the community is showcased in the events they present and their willingness to help businesses do business. Pick up the phone, give them a call and learn the value a Chamber membership can offer your business; we recommend it!
