LEARN MORE ABOUT THE DURHAM YORK ENERGY CENTRE

The Regional Municipalities of Durham and York are building an energy-from-waste facility in the municipality of Clarington in Durham Region. This facility will process up to 140,000 tonnes of garbage per year. The waste combustion process will produce steam to generate electricity that will be sold to the provincial grid as energy. The Durham York Energy Centre is scheduled to be operational in fall 2014.

DURHAM YORK ENERGY CENTRE INFORMATION SESSION

Wednesday, June 25, 2014, 5 p.m. to 8 p.m.
Courtice Community Complex, Hall B
2950 Courtice Road North, Courtice, ON

The session will include:

- Updates on the design, construction and operation of the Durham York Energy Centre, provided by Covanta Energy Corp.
- Information on current waste diversion programs including Durham Region's Integrated Waste Management Program and York Region's SM4RT Living Waste Management Master Plan

If you require accommodation to participate in this meeting, please contact York Region at 1-866-665-6752 to advise of any specific requirements.
