The All-New 2015 Golf

The evolution of the species.

The automobile business has evolved. The people who make cars have evolved. The way we buy cars has evolved. And over the course of this year Pfaff VW in Newmarket has evolved. Change is good. What's really exciting about this change is that now Pfaff will be selling and servicing the entire VW range from our brand new

Pfaff VW facility on Leslie Street in Newmarket. And that includes the remarkable All-New 2015 VW Golf that has just arrived at our dealership this month. Not only is the new 2015 Golf a stunning evolution of the VW mark, but you could say it's also part of the continuing evolution of Pfaff.
