

THE VACMASTER

"A Trusted Name Since 1985"

The BEAM Differences

- Steel Hood Canopy**
• Protects & keeps the motor from overheating while keeping out dust & water
- Motor Ventilation Louvers**
• Positioned for safety & prolonged motor life
- Top Motor Thermal Seal**
• Prevents heated motor air from mixing with cooling intake air for long motor life
- By-Pass Motor**
• Vacuumed air is exhausted around powerful motor, not through it
- Spring Mounted Motor**
• 3 hold-down springs provide continuous perfect seal & suction
- Exclusive Isolation Gasket**
• Unique design cradles the motor assuring a lifetime perfect seal while reducing noise & vibration
- Motor Mount Plate**
• Heavy Duty 20 gauge steel takes the wear & tear & provides a perfect seal for life
- "State Of The Art" Printed Circuit Board**
• Reliable, durable & advanced method of switching and control
• Expandable for future technology
- Manual Override Switch**
• Low voltage by-pass system always ensures power unit is operational
- Sentry Light**
• Signals low voltage system is operational
- Circuit Breaker**
• Prevents damage in the case of excess load by shutting system down
- Low Voltage Terminals**
• Fool-proof, easy, low volt connection
- Low Volt Terminal Boot**
• Shield provides proper electrical contact & prevents accidental contact
- Heavy Duty 6' Power Cord**
- Heavy Duty Steel Body**
• Solid steel withstands powerful suction & normal wear & tear
- Powder Coat Paint**
• Resists rust & corrosion for life
- Rubber Gasket And Seals**
• Maintain shape to provide long term seals
- Integrated Filter Mount**
• Formed into body for proper filter mount
- Built-In Utility Inlet**
• Convenient built-in inlet for vacuuming garage or basement
- Positive Action spring Latches**
• Maintains a great seal for life
- Exclusive Alternate Intake system**
• Left or right intake? You choose with A.I.S.™
- Spring Steel Filter Ring**
• Form fits to integrated filter mount & provides positive seal
- Permanent Self-Cleaning Dual Filter**
• Nylon anti static layer "sheds" debris when unit is shut off
• Polyester layer ensures best filtration - 98% at 2 microns
• No venting required
• No filters to wash or replace - ever
- Duralite™ Dirt Receptacle**
• Tough, rust resistant ABS construction with handles
• No bags to buy
- Dirt Receptacle View Window**
• When to empty at a glance
- Easy-To-Install Mounting Bracket**
• Flush mounts to even single stud on wall
