

A Change Of Scene In 'Starville'

At the end of March, downtown Stouffville was transformed into Unville, USA during the shooting of a new series of Warehouse 13, an American television series which premiered on Syfy in July 2009. The series has been described as part *X-Files*, part *Raiders of the Lost Ark* and part *Moonlighting*. We doubt whether town planners would approve of Nineteen on the Park's retro frontage.
