A year round sport?

To the Editor:

I have just finished perusing the latest issue of the Stouffville Free Press, and had to comment on the snow golf picture I found on page 22. It made me laugh, but I'd like to submit a photo from our snow golf day we have every February near Uxbridge at a full nine hole course with rest stops and a 19th hole.

The things we do to get through winter.

THE JOY OF GARDENING

By Hazel Grove

I enjoy planning a garden during the long, cold winter.

It gives me something to get excited about and look forward to. I love the smell of fresh seeds and watching green shoots peeping through the awakening, rich soil.

My mood and physical strength improve as the garden grows. My garden gives me great pleasure and happiness. I can walk on my lovely pathway and have tea parties with my amazing friends and neighbours.

My husband Lorne and I walk through our arbour where we enjoy our English garden, with its palette of colours. May you too enjoy a summer of happy gardening.
