

Better Health Care

Begins Here

Stouffville Denture Clinic

We are presented with choices each and every day. Choices even abound when pursuing Denture Care. Common choices include "Is it better to relin or replace," "conventional relin or soft touch relin?" just to name a few. However the most important choice is who to trust with taking care of your Denture needs.

At the Stouffville Denture Clinic, local resident and Denturist Michael Deegan knows how important the relationship between the Denturist and Patient is. As a 4th generation dental provider, Michael's Grandfather was one of the original Denturists, and now Michael and five other family members currently work as Denturists. For Michael this is more than just a career, this is the continuance of a family tradition, what has become a personal family legacy. At the Stouffville Denture clinic, you're not only getting personally customized treatment, you get the continuance of a family tradition built on a quality of care that simply goes further than a new denture.

When the choice arises for you or a family member, remember nothing is more important than the care received, during and after services rendered. Make the choice that four generations have made, choose a Deegan Denture Clinic for your Denture needs.

Contact the Stouffville Denture Clinic for a no obligation consultation to get to know Michael a little better, and how he can help take care of your denture needs at 905-642-4867, located at 6038 Main St. Stouffville.

Ortho-Bionomy®?

During a transitional part of my life, I was given a sand dollar with a message reminding me to make gentleness a part of life and, in particular, part of my own life.

In 1992, I completed my education to become Marita Concil B.A., Registered Massage Therapist. Finally, I had discovered the joy and satisfaction of doing something I truly loved.

Then, I discovered Ortho-Bionomy®. To my surprise, the sand dollar is the symbol used by the association and one of its main principles is gentleness. The learning is ever expansive. With every class I take, I learn to deepen my ability to be gently present and attentive to the body. This adds a special quality to my massage treatments as the two are blended in one.

With the strong knowledge of the physical structure of the body gained from my massage therapy training and supported by Ortho-Bionomy learning, a session has firm medical roots.

The holistic nature of Ortho-Bionomy addresses the whole person at all levels of the work. For example, it is not a psychological therapy, but may well have psychological benefits beyond the physical.

If you are interested in learning more, please visit my new website <http://stouffvillemassage.com> with links to the Canadian and International sites for Ortho-Bionomy.

Of course, you can always contact me and book an appointment to experience it first hand!

Marita Concil RMT, Associate Member of the Ortho-Bionomy Association of Canada. Stouffville Therapeutic Centre for Massage, Shiatsu, and Reflexology. Call 905 642 4237.
